Caty Li (China)

Completed English for Academic Purposes and BEP – UQ Pathway Program

I had limited English before coming to Australia and had no idea what academic English was.

ICTE-UQ facilitated the program in a way that set a solid foundation for my Masters studies as well as training my skill set to be able to handle various assignment requirements and a heavy workload. I appreciate all the kinds of essay writing exercises and reading paper practise that I undertook before commencing my Masters journey.

This really took the pressure off of me and helped with my academic achievements.

Marta Silva Delachi (Italy)

Completed English for International Business Communication

It was very exciting and so new for me to study in Australia, and so different to Europe. The University of Queensland is such a good place to study – good teachers, good lessons, good structure and great extracurricular activities.

I had the best experience and one that led me to rethink my future in Italy. It was not just the different environment at UQ; it was the technology, the facility, the healthy environment, the international experience and integration with lots of different people from diverse cultures.

These days I am now working as a Product Merchandiser for a premium high street fashion brand in London. Even now when I go for interviews one of the things that attract the most attention on my CV is the Australian study.

Rikako Ito (Japan)

Completed General English Program

The experiences I had at ICTE-UQ are unforgettable for me. At ICTE-UQ I learnt practical English in an interactive classroom environment, where we not only listened to what our teacher said, but discussed topics, spoke about our countries and asked many questions. The style is more active and interactive than usual, and I learnt not only academic skills but communication skills.

I now have a better understanding of my English level. I had not had a chance to use English in formal occasions before. I now understand my strengths and what I need to improve on. This has given me more confidence with English and my knowledge of global issues.

Adam Alyahya (Saudi Arabia)

Completed General English and English for Academic Purposes – UQ Pathway Program

My experience at ICTE-UQ is a remarkable one. The unique teaching style and the supportive approach of teachers towards me made my learning of English seamless. The learning facilities along with the range of inclusive activities and student services at ICTE-UQ contributed to my unforgettable learning experience.

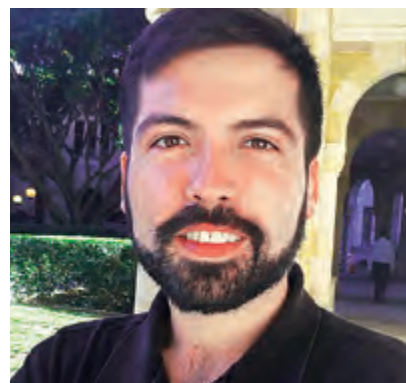

Where I am today and where I will be in the future is due in no small part to the foundational skills I built as a student at ICTE-UQ.

Cindy Youngshin (Korea)

Completed General English Program

When I first arrived in Australia, my English was quite bad, and it improved during my studies at ICTE-UQ. The teachers at ICTE-UQ were very helpful at developing and enhancing my English skills. On top of my speaking, listening, reading and writing skills, I have learnt how to write an essay in a proper format. I can now converse with Australians with no major problems.

Ignacio Javier Gonzalez Aravena (Chile)

Completed BEP – UQ Pathway Program

My experience at ICTE-UQ was fantastic, not only academically but also personally. The teachers and my classmates were very friendly. The teachers are professional with many years of experience in teaching English, and they are very supportive of all the students.

The UQ campus is a beautiful place for studying because it has all the facilities necessary for learning and networking. In my case, I made many friends from all over the world.

WHY CHOOSE THE BRIDGING ENGLISH PROGRAM (BEP)?

The Bridging English Program (BEP) is an English language pathway with multiple entry points for admission into undergraduate and postgraduate programs at UQ, including Study Abroad.

How long will you study?

Depending on your English level there are five entry points for the BEP.

Please see the table on page 16 for details on entry requirements for each course.

Why choose BEP?

BEP will help you to develop the English language abilities and skills needed for UQ program commencement. If you successfully meet all BEP exit requirements, you do not need to sit an IELTS or other recognised test at the end of the course to gain entry into your UQ program. There are two BEP pathways to UQ, the BEP Advantage and the BEP Standard (see right).

Program features

- BEP offers multiple entry points to provide you with more flexibility and a smoother transition to further study programs.
- Every five weeks you will have the opportunity for one-on-one consultation sessions to discuss your progress.
- Weekly progress tests will ensure you are on track to reach your English language goals.

What will you learn?

BEP develops proficiency in all four skills (reading, writing, listening, and speaking), as well as systematically building your range of vocabulary and control of grammar.

The course modules include:

- **Reading and Writing** – understanding written information from academic and general texts, and writing coherent and cohesive academic texts, including writing under exam conditions and writing academic essays.
- **Speaking and Listening** – understanding spoken information presented in academic and general settings, as well as participating in general and academic discussions and presenting information to an audience.

What can you expect to do during this course?

You will study 20 hours in class each week. Also, you are expected to:

- complete online workbook tasks (6–8 hours a week)
- read and listen extensively (3–4 hours a week)
- complete set writing tasks (2–4 hours a week)
- carry out independent project work (1–2 hours a week)

Spending this extra time will help you to improve your English language abilities to the level needed for successful entry into your UQ program.

How will you be assessed?

Assessment tasks and tests are administered at the end of BEP 10 to evaluate the development of your speaking, listening, reading, and writing skills. Students who meet all the BEP exit requirements will be eligible to commence their UQ program. BEP 30, BEP 25, BEP 20 and BEP 15 students will also need to maintain suitable academic progress to move into the BEP 10.
