

2019

Postgraduate Guide

Arman Salehirad - Canada
Helene Norman - Sweden

RIGHT NOW, NO MATTER WHAT YOU'RE DOING - WORKING ON A BIG JOB, A SMALL JOB OR TRYING TO FIND A JOB - THIS IS THE MOST YOU'VE EVER THOUGHT, WORKED OR QUESTIONED WHAT LIFE IS ALL ABOUT, AND YOU'RE NOT THE ONLY ONE. THERE'S SEVEN BILLION DIFFERENT 'NOWS' HAPPENING IN THE WORLD. WITH SO MUCH GOING ON, WHY WOULDN'T YOU LEARN FROM IT?

AT BOND UNIVERSITY WE PRIZE CURRENT KNOWLEDGE FROM INNOVATORS. WE VALUE EXPERIENCE IN THE WORLD RIGHT NOW. WE MAKE EACH MOMENT COUNT WITH SMALL CLASS SIZES, PERSONAL ATTENTION AND ACCELERATED DEGREES.

BECAUSE THERE'S NO MOMENT LIKE THIS MOMENT.

**BOND UNIVERSITY.
THE UNIVERSITY OF NOW.**

WELCOME

Vice-Chancellor's Message

The world is changing. How we learn and respond to these changes is critical for our future successes.

The future belongs to those making it now, so finding the right university is the most important decision you will make at this stage of your life. It all starts with the right learning environment. Every Bond student receives a personalised, transformative learning experience thanks to practical learning opportunities that respond to our world moment by moment, smaller class sizes and the chance to collaborate with like-minded students.

As a Bond student, you will have a lifelong advantage, equipped with the skills to stand up to intense competition, become globally mobile and connected with the right people for career success.

When I venture around campus I feel a special kind of spirit at Bond. Guided by world-class lecturers, all of our students are eager, ambitious and ready to challenge the norm with innovation always top of mind. The accelerated degrees inspire a culture of discipline and focus. And the result? Graduates that are confident, capable and awake to opportunity.

We know you have the potential to make a real difference – because we have seen so many of our students over the years do just that. Living and working in every corner of the globe, they are now heading up major corporations, helping disadvantaged communities in developing countries, researching medical breakthroughs and engineering cutting-edge technologies.

As a graduate of Bond University, you will be joining their elite ranks.

I very much look forward to sharing the journey as you bring your ambition to life.

A handwritten signature in black ink that reads "Tim Brailsford". The signature is fluid and cursive, with a distinct "T" and "B" at the beginning.

Professor Tim Brailsford
Vice-Chancellor and President

WHY BOND?

BECAUSE WE DO THINGS DIFFERENTLY.

From a student perspective, Bond University stands alone. The reason why? Well, actually there are three of them, all which add up to a far better university experience and outcome for you - regardless of which field of study you choose.

1

FINISH YOUR DEGREE SOONER

At Bond, you won't be losing time with long breaks between semesters. We run three full semesters a year, with intakes in January, May and September. This means for certain programs you can complete 12-subject master's in just a year.

It also means you don't have to wait until next February or July to get started on your degree. If you're ready to get your future underway, our next intake is just around the corner.

2

BE MENTORED BY WORLD LEADING ACADEMICS

Bond's personalised teaching philosophy means you will learn in smaller class sizes with unprecedented one-on-one access to your professors. Even outside class time, our academics have an open door policy that means they will not only know you by name, they'll actively mentor your progress.

3

GRADUATE BETTER PREPARED

At Bond, we believe education goes beyond the classroom. Part of our unique approach is to help you develop a strong foundation of leadership attributes that will prepare you for success and rapid career progression.

This is why our graduates are the first choice for many employers. They are immediately distinguishable in the workplace for their confidence, maturity, global awareness, communication skills and leadership qualities. Bond sets you up to succeed.

layar

STUDYING AT BOND

Bond University offers three semesters a year, allowing you to complete your studies much earlier than at other universities. For instance, you may be able to complete a master's degree between one year (3 semesters) and one year and four months (4 semesters) at Bond.

Bond's accelerated study mode, combined with the flexibility of our cross-faculty subject offerings, gives you the opportunity to tailor your studies to suit your specific career goals or enhance your employability by gaining extra qualifications.

POSTGRADUATE STUDY

Bond University offers a range of higher degrees by coursework or research.

Admission to postgraduate coursework degrees generally requires an undergraduate qualification from a recognised institution. In some cases, however, extensive career experience in a relevant discipline may meet the entry criteria.

Doctoral studies are completed predominantly through research guided and supervised by specialist advisors. Each Faculty at Bond incorporates world-renowned research centres, headed by international authorities in their respective fields.

GRADUATE CERTIFICATE

Completed in just four months (one semester), the graduate certificate comprises four subjects and serve as an ideal introduction to postgraduate study. This is particularly ideal for working professionals who cannot commit the time for a full master's degree. Subjects completed can normally be credited towards a graduate diploma.

GRADUATE DIPLOMA

Completed in just eight months (two semesters), the graduate diploma comprises eight subjects. This is an excellent option for those wishing to update their skills and qualifications in a specialist area and may be credited towards a full master's degree*.

MASTER'S DEGREE

Master's degrees are available in a wide range of disciplines in all faculties. If you hold a bachelor degree in a similar discipline, the master's program generally comprises 12 subjects. Master's programs can be undertaken by coursework only, a combination of coursework and research, or by research only.

DOCTOR OF PHILOSOPHY (PhD)

Higher Degrees by Research are completed predominantly through research, with candidates guided and supervised by specialist advisors. The PhD degree may be awarded for thesis only, or thesis and coursework or publication.

DOCTORATE

Doctoral degrees are offered by Bond in the areas of legal science, laws, health sciences and physiotherapy.

*Excludes Psychology. Please refer to pages 98 - 100 for Psychology specific outcomes.

PROFESSIONAL DEGREE

Professional master's degrees are four semesters plus 20 weeks Work Integrated Learning or Professional Portfolio, depending on program, to promote student learning and professional practice in the workplace. The total degree duration is 92 weeks (two academic years). Open to all students eligible to undertake master's level postgraduate studies, these degrees are offered within the following areas:

Bond Business School

Professional degrees are offered through the Bond Business School in the areas of accounting, business, finance and financial management. All professional degrees are available each semester.

These degrees follow the same course structure as that of the existing degrees, but include a 20-week Work Integrated Learning component designed to promote and support student learning, personal development and professional practice.

Faculty of Society & Design

Professional degrees are offered in the areas of real estate, construction, communications, international relations, criminology, project management and urban planning. Most are available each semester.

CREDIT TRANSFER

Subject credits may be available for previous tertiary studies in a relevant or related field. You can apply for subject credits on the Bond University application form by including certified copies of transcripts from your previous studies, detailed course outlines and subject descriptions. For more information visit, bond.edu.au/credit.

INVESTING IN YOUR FUTURE

Your university degree is one of the most important investments you will make in your lifetime. As with all investments, you must consider the rate of return for both your short term career opportunities and long term lifetime earnings. With FEE-HELP the benefits of a Bond University degree are available to everyone.

Bond University is a not-for-profit organisation. This means we're driven by your success. One hundred per cent of your tuition fees are reinvested back into the University, ensuring you have access to state-of-the-art facilities and personalised attention from world-class academics, preparing you for success in your chosen career.

Places at Bond University are not subsidised by the government and full tuition fees are charged each semester on a subject by subject basis. However, there are a number of options available to help you finance your educational investment, with assistance available from government loan programs like FEE-HELP.

What is FEE-HELP?

FEE-HELP is an interest free loan that helps eligible fee paying students pay their tuition fees. This accumulated debt is indexed annually by the Australian Taxation Office, according to the Consumer Price Index (CPI). Please refer to studyassist.gov.au/sites/studyassist for more information about the Australian Government assistance for financing study.

If you are an eligible student and wish to pay for part or all of your tuition fees through FEE-HELP, you must complete a Request for FEE-HELP Assistance form by the end of the second week of semester.

Please visit bond.edu.au/fee-help for more information.

RIGHT NOW, THINGS ARE CHANGING

Transformer is an Australian-first program aimed at teaching you big-picture thinking, creative problem solving and evidence-based decision making so you can make a real difference in the community, your own business or an existing one.

This fee-free co-curricular program is designed to encourage exploration, enable innovation and enhance your entrepreneurial skills, no matter what degree you are studying.

With unparalleled access to industry experts, mentors, academic coaches, workshops and a cutting-edge 24/7 co-working space, this is a transformational experience that will challenge you to adapt, create and collaborate, preparing you for today's ever-evolving workplaces and positions that might not yet even exist.

bond.edu.au/transformer

Refer to page 9
for instructions.

BROADEN YOUR HORIZONS WITH A COMBINED DEGREE

Take advantage of Bond's accelerated timetable to study a combined degree in less time than it would take to complete a single degree elsewhere.

Having two degrees on your CV will give you a clear advantage with recruiters and open up a wider choice of career paths.

Choose complementary study areas from one faculty (e.g. Master of Architecture / Master of Project Management) or take a cross-disciplinary approach (Master of Sport Management / Master of Project Management). Some of our most popular combinations include:

- Master of Architecture / Master of Project Management
- Master of Business Administration / Master of Accounting
- Master of Business Administration / Master of Finance
- Master of Business Administration / Master of Project Management

- Master of Communication / Master of Project Management
- Master of Construction Practice / Master of Project Management
- Master of Criminology / Master of Project Management
- Master of International Relations / Master of Project Management
- Master of Sport Management / Master of Project Management
- Master of Sustainable Environments and Planning / Master of Project Management
- Master of Valuation and Property Development / Master of Project Management

CAREER DEVELOPMENT SERVICES

Underpinning all the unique advantages that Bond offers its students is our goal to help you find, not just a job, but a meaningful, rewarding and challenging career.

Whether you want to change the world, change your community or change your life, the journey to your future starts here on campus at the Career Development Centre.

The Career Development Centre is responsible for delivering Beyond Bond: Professional Development & Community Engagement – an innovative degree requirement designed to foster and develop the all-important interpersonal skills required by employers in today's competitive job market.

Our team of Employment Services Specialists and Business Development Specialists serve as the vital link between students and our industry partners to manage internships and placements that offer quality practical experience and potential career contacts with leading Australian and international employers.

We can even help you find part-time employment and holiday jobs.

Above all, the Career Development Centre's qualified team provides a full suite of career guidance services. Right from day one, we can help you define your career path, write applications and resumes, prepare for interviews and make contact with key employers.

We hold workshops, seminars, networking functions and an annual Job & Internship Fair, as well as advertising available positions on our Scout online careers and employment portal.

Choosing to study at Bond tells us that you want more than a university degree: You want a career that will shape your life experience and deliver a world of exciting opportunities.

The Career Development Centre is here to help you bring that ambition to life and we encourage all students to make us a key part of your Bond experience.

For more information about the Career Development Centre please visit bond.edu.au/cdc.

ALUMNI NETWORK

At Bond University, you don't have to wait until you graduate to enjoy the benefits of our global Alumni Network.

Our Alumni play an active role in life at Bond, offering you exclusive work experience opportunities, internships and clinical placements, as well as sharing their wealth of life and career experience as regular guest speakers and lecturers on campus.

Through our Alumni Mentor Program, they'll work with you one-on-one to help you explore your career options and expand your professional networks.

They also contribute to the Bond University Ambition Fund which supports various student grants and bursaries such as:

- Student Opportunity Fund: supporting unique and enriching student activities beyond the classroom
- Elite Athlete Fund: helping student-athletes achieve their dreams on the global stage
- Academic Support Fund: providing laptop and textbook bursaries to students facing genuine financial hardship
- Transformer Seed Funding: taking student ideas from the classroom to the boardroom

With more than 25,000 Bond graduates now living and working in over 130 countries worldwide, our alumni community is truly global. And when you graduate, they will extend a hand of help, friendship and professional development through the active Bond Alumni Committees found in every corner of the globe.

THEA PHILIP

Bachelor of Arts / Bachelor of Laws

"The Student Opportunity Fund made it possible for me to travel to Washington D.C. and intern with the International Centre for Missing and Exploited Children, which is an international non-profit that seeks to eradicate child sexual abuse, exploitation and abduction. At times it was quite confronting, but it was also incredibly rewarding knowing that my work was contributing to a safer world for children."

NAVTEJ CHHIBBER

Doctor of Medicine

"Through the help of the Student Opportunity Fund I was able to spend four weeks in Kirakira, a small community of around 4,000 people in the Solomon Islands. The experience made me appreciate our healthcare system a lot more, and also made me feel like I should be contributing a lot more to developing nations and their healthcare systems if I have the opportunity to do so."

HOW TO APPLY TO BOND

1

PICK YOUR PROGRAM.

Deciding on a degree or program is a personal choice. It's about choosing the right program for you - your interests, your future.

Find more information about programs offered at Bond by visiting; bond.edu.au/future-students/study-bond/search-program.

2

APPLICATION PROCESS.

Applying to study at Bond is easy! Applications for most Bond programs (excluding the Medical Program[^]) can be lodged at any time directly to the University, you do not need to go through QTAC.

Applications for the Medical Program[^] are only open to domestic students and must be lodged through Queensland Tertiary Admissions Centre (QTAC) at qtac.edu.au. For information on application closing dates, visit bond.edu.au/timeline.

REQUIRED DOCUMENTS.

3

Make sure that you complete all required fields in your application form including uploading required documentation.

This documentation may include:

- Academic Transcripts
- Academic References
- Passport
- Resume / CV
- Any other documents required for specific programs

For more information visit the Application Tips page; bond.edu.au/future-students/study-bond/how-apply/application-process/application-tips.

4

APPLICATION SUBMISSION.

Agree to the application declaration and click 'Submit'. You'll receive an email from Bond University to confirm your application was successfully submitted.

5

APPLICATION PROCESS TIME.

The application review process will normally take two weeks provided all supporting documentation has been provided.

RECEIVE YOUR LETTER OF OFFER.

6

As a successful applicant, you will receive an email from us offering you to officially become a Bond student. This email includes:

- A formal Letter of Offer from Bond University
- A Response to Offer form
- Information about fee payment options and accommodation

7

ACCEPT YOUR OFFER.

You are two steps away from confirming your place and joining the university of now! To accept your offer all you need to do is complete and return your Response to Offer form to admissions@bond.edu.au and pay the required fees as listed on your offer.

8

ORIENTATION.

Your first introduction to university life! Orientation is the perfect time to make new friends, find your way around campus and complete your enrolment at Bond. The Orientation experience features an exciting program of social activities where you can relax and meet people, and there are lots of information hotspots to help you get ready for university life.

[^]The Medical Program is comprised of two sequential degrees - the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

WHERE WILL YOUR DEGREE TAKE YOU?

There's a lot to consider when deciding what you will study. Knowing where your degree will take you after you graduate is very important. Use this index to explore your study options based on your career interests.

MASTER OF ACCOUNTING

CRICOS Course Code 063115A

Duration: 1 year 4 months full-time (4 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

An undergraduate degree in any discipline other than accounting, or a non-degree professional accounting qualification with at least five years' work experience.

PROGRAM DESCRIPTION

The Master of Accounting provides students with the knowledge and skills needed to work in the accounting profession. Designed for recent graduates and professionals in fields other than accounting, the program offers a firm academic grounding and hands-on appreciation of the globally recognised industry.

PROGRAM STRUCTURE

Core Subjects (12)

- Accounting Principles
- Accounting Theory and Application
- Applied Research Project
- Auditing
- Business Law
- Economics for Business
- Financial Accounting
- Information Analysis and Systems
- Management Accounting and Strategy
- Managerial Finance
- Security Appraisal and Valuation
- Taxation Practice For Accountants

PROFESSIONAL OUTCOMES

Accounting and financial literacy skills are needed by every business in the world. Accounting is a globally recognised profession with a broad range of roles, often leading to careers in senior management. Master of Accounting graduates are eligible for employment in professional accounting practices (public accounting or chartered accountants), corporations, the public sector and not-for-profit organisations. The degree is also useful to managers who are exposed to accounting on a day-to-day basis.

PROFESSIONAL RECOGNITION

- Chartered Accountants Australia & New Zealand (CAANZ)
- Certified Practising Accountants (CPA) Australia
- Institute of Public Accountants (IPA)

COMBINED DEGREES

The following combined degree is available:

- Master of Accounting / Master of Business Administration
(CRICOS Course Code: 088913J)

MASTER OF ACCOUNTING (PROFESSIONAL)

CRICOS Course Code 063521J

Duration: 1 year 4 months plus 20 weeks

(92 weeks - 4 semesters plus 20 weeks)

Starting: January, May, September

ENTRY REQUIREMENTS

An undergraduate degree in any discipline other than accounting, or a non-degree professional accounting qualification with at least five years' work experience.

PROGRAM DESCRIPTION

The professional program follows the same structure as the Master of Accounting program with an additional 20-week Work Integrated Learning component. Work Integrated Learning is a 45 credit point subject designed to promote and support learning, personal development and professional practice. The subject focuses on developing self-analysis and reflective learning skills, and applying theoretical solutions for practical workplace problems.

MASTER OF ACTUARIAL SCIENCE

CRICOS Course Code 092654M

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

An undergraduate degree in any discipline other than actuarial science and well-developed mathematical abilities.

PROGRAM DESCRIPTION

The Master of Actuarial Science provides students with an undergraduate degree in an alternative field an opportunity to complete Part 1 with the Actuaries Institute syllabus. Students have unparalleled access to Bond's Macquarie Trading Room and 40 Bloomberg terminals. The program combines advanced mathematics, statistics, data analytics, actuarial risk theory, finance, economics and accounting subjects with large-scale, real-life commercial data analysis.

PROGRAM STRUCTURE

Core Subjects (11)

- Accounting Principles
- Advanced Modelling
- Contingencies
- Corporate Finance
- Derivative Products
- Economics for Business
- Financial Mathematics
- Insurance Models
- Investments
- Macroeconomics
- Mathematical Statistics

Electives (1)

You must complete an approved postgraduate elective subject.

PROFESSIONAL OUTCOMES

Actuarial Science has emerged as a key growth sector of the 21st century and is consistently ranked among the best careers in the world. High graduate starting salaries and full employment rates reflect the growing demand for qualified analysts, with career opportunities predicted to increase substantially over the next five years. The Master of Actuarial Science prepares students for rewarding careers in a diverse range of disciplines, including climatology, consulting, data analytics, e-commerce, economics, finance, health, insurance, infrastructure, research, risk management, safety, science, statistics, superannuation and technology.

PROFESSIONAL RECOGNITION

- Actuaries Institute

KEY FEATURES

- Learn in smaller classes.
- Unparalleled access to Bond Business School's two financial trading rooms and 40 Bloomberg data-sourcing terminals.
- Access to the Business School's formal mentor program where you will be supported by academic staff, senior students and alumni.

MASTER OF ACTUARIAL PRACTICE

CRICOS Course Code 083211B

Duration: 1 year 4 months plus 20 weeks
(92 weeks - 4 semesters plus 20 weeks)

Starting: January, May, September

ENTRY REQUIREMENTS

An undergraduate degree in any discipline other than actuarial science and well-developed mathematical abilities.

PROGRAM DESCRIPTION

The Master of Actuarial Practice is a five semester degree that provides students with an undergraduate degree in an alternative field an opportunity to complete Part 1 and Part 2 with the Actuaries Institute. This 92 week program contains a 20 week thesis component in the final semester. In addition, students have the opportunity to undertake a four subject specialisation, plus one elective or complete five electives.

Core Subjects (11)

- Accounting Principles
- Advanced Modelling
- Contingencies
- Corporate Finance
- Derivative Products
- Economics for Business
- Financial Mathematics
- Insurance Models
- Investments

- Marketing Fundamentals
- Strategy or Entrepreneurship

ELISE GORE

Master of Business Administration (Executive)

Alumna

Valedictorian

Management Consultant, Resource Safety Solutions

Karratha, Western Australia

"I originally chose Bond because of the structure of the Master of Business Administration (Executive) program. The intensive format and its frequency, the selection criteria for the cohort, and the units on offer meant I could work in Western Australia and commute to the Gold Coast for intensive study blocks. As I progressed through the program, I quickly realised that the real value was held in the personalised focus of the University and its Faculty members and support staff."

“ ”

WORLD-CLASS TRADING FACILITIES

Comprising two industry-standard trading facilities, Bond Business School offers every student 24-hour access to Bloomberg's live financial market data. Our students gain practical experience in executing deals, managing portfolios, trading financial securities and changing market conditions. Bond Business School has 40 Bloomberg terminals.

GRADUATE CERTIFICATE OF BUSINESS ADMINISTRATION

CRICOS Course Code 078187F

Duration: 1 semester (4 months)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree from a recognised institution and three years' work experience.

PROGRAM DESCRIPTION

The Graduate Certificate of Business Administration is an introductory generalist management program of four subjects. Blending industry-relevant research with practical applications and challenges, the learning outcomes are centred on introducing the student to aspects of the the three pillars of leadership, global business and entrepreneurship, developing graduates who can think critically and strategically in this context. The program is designed to introduce graduates to some of the core underlying technical skills that inform effective decision making, including the development of the interpersonal, cross cultural and communication skills that are required to lead in the implementation of these decisions. Alternatively, it can act as a pathway into the MBA program for those students with the requisite work experience but not the academic background.

PROGRAM STRUCTURE

You must complete four (4) of the following subjects:

- Accounting Principles
- Managerial Economics
- Business in the Global Economy
- Managerial Finance
- Managing People
- Marketing Management
- Statistical Methods for Business

MASTER OF BUSINESS ADMINISTRATION (KNOWN AS MBA)

CRICOS Course Code 063120D

Duration: 1 year 4 months full-time (4 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

- Quality undergraduate degree from a recognised institution
- Minimum three years' work experience
- Cover letter detailing your career goals, future ambitions and experience
- Two professional referee reports
- Interview with the Program Director or MBA Coordinator

PROGRAM DESCRIPTION

Innovation, resilience and flexibility are the foundations for success in the tough global business environment. Ranked among the Top 10 MBA's in Australia by students in the 2017 Australian Financial Review Boss

MBA Rankings, the Bond Master of Business Administration (MBA) transforms you personally and professionally to prepare you for challenges anywhere in the world. An MBA is one of the most prestigious postgraduate qualifications and is highly regarded worldwide offering the opportunity to get more from your career, move up the ladder or change industry.

Bond offers one of the most diverse MBA cohorts in the world. Over 20 nationalities are represented providing you with cross-cultural experiences while you study and a rich global network afterwards.

All MBA students attend a three day Orientation Leadership Retreat and also have the opportunity to go on a Study Tour to China or Silicon Valley as an elective subject.

The program can be completed in a minimum of three semesters (12 months) although most international students complete in four semesters (16 months).

PROGRAM STRUCTURE

Core Subjects (11)

- MBA Orientation
- Accounting Principles
- Business Strategy
- Entrepreneurship and Innovation
- Business in the Global Economy
- Management Accounting and Strategy
- Managerial Economics
- Managerial Finance
- Managing People
- Marketing Management
- Statistical Methods for Business

ELECTIVES (2)

You must complete approved business elective subjects.

KEY FEATURES

- Smaller classes and personal mentoring
 - learn in groups of around 20 to 30, delivering more interaction and more support
- Finish your degree sooner. Study one year full-time or two years part-time
- Over 20 nationalities are represented providing you with cross-cultural experiences while you study and a rich global network afterwards.

COMBINED DEGREES

Popular combined degrees include:

- Master of Business Administration / Master of Accounting
(CRICOS Course Code: 088913J)
- Master of Business Administration / Master of Finance
(CRICOS Course Code: 085653D)
- Master of Business Administration / Master of Project Management
(CRICOS Course Code: 085563F)

MASTER OF BUSINESS ADMINISTRATION (EXECUTIVE)

Duration: 12 - 16 months intensive mode

Starting: April, August

ENTRY REQUIREMENTS

Minimum eight years professional work experience, including three years in management roles:

- Evidence of prior education through university or other post-secondary learning
- Cover letter detailing your career goals, future ambitions and experience
- Two professional referee reports
- An interview with the Program Director or Executive MBA Coordinator

PROGRAM DESCRIPTION

The Bond University Executive MBA is offered exclusively to Australian upper executives and senior managers who rely on a complex matrix of managerial, organisation and analytical skills on a day-to-day basis. The program includes an immersive two-week China Study Tour, exposing you to eastern business culture, and how executives manage challenges in one of the world's fastest emerging markets. Designed for local and interstate students to fly-in and fly-out, Bond Master of Business Administration (Executive) is structured and exclusively for senior managers and executives who cannot afford to take time out for full-time study but want to reap the benefits of postgraduate education.

PROGRAM STRUCTURE

Core Subjects (14)

- EMBA Orientation
- Creating and Growing a Business
- Cross Cultural Management
- Financial Accounting and Analysis
- Global Business
- Leadership Skill Development
- Major Application Project
- Managing Resources
- Market Orientated Decision Making
- Markets and Organisations
- Self Insights, Teamwork and Strategic Thinking
- Strategic People Management and Organisational Change
- Strategic Tools and Leadership
- Valuation

Elective Subjects (4)

You must choose four of the following 5 credit point subjects:

- Corporate Governance
- Executive Negotiation Strategies
- Management Consulting
- Mergers and Takeovers
- Project Management

DELIVERY STYLE

The Executive MBA is structured to accommodate senior managers who cannot afford to take time out for full-time study. On-campus classes are scheduled in a series of one and two-week in-residence sessions, spaced out over a 13 month period or extended over 26 months, allowing managers to utilise their allotted holiday and long service leave to earn senior level qualifications with minimum interruption to their work commitments.

MASTER OF BUSINESS ADMINISTRATION (PROFESSIONAL)

CRICOS Course Code 069029F

Duration: 1 year 4 months plus 20 weeks

(92 weeks - 4 semesters plus 20 weeks)

Starting: January, May, September

ENTRY REQUIREMENTS

- Quality undergraduate degree from a recognised institution
- Minimum three years' work experience
- Cover letter detailing your career goals, future ambitions and experience
- Two professional referee reports
- Interview with the Program Director or MBA Coordinator

PROGRAM DESCRIPTION

International students can opt to study the MBA (Professional). This program includes an additional 20-week Work Integrated Learning component, designed to promote and support learning, personal development and professional practice in the Australian business environment.

MASTER OF BUSINESS ADMINISTRATION (SPECIALISATION)

CRICOS Course Code 065679D

Duration: 1 year 4 months full-time (4 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

- Quality undergraduate degree from a recognised institution
- Minimum three years' work experience
- Cover letter detailing your career goals, future ambitions and experience
- Two professional referee reports
- Interview with the Program Director or MBA Coordinator

PROGRAM DESCRIPTION

You can add on a specialisation to the MBA program by undertaking an additional semester of study. A specialisation enables you to combine a generalist MBA program with a focused discipline-based area of study. A specialisation is useful if you are planning to use the MBA for a career change or if you just want more knowledge in that area.

SPECIALISATIONS:

- Finance
- Marketing
- International Business
- Digital Business
- Big Data
- Tourism and Hotel Management

Core Subjects (11)

- MBA Orientation
- Accounting Principles
- Business Strategy
- Entrepreneurship and Innovation
- Business in the Global Economy
- Management Accounting and Strategy

Refer to page 9
for instructions

- Managerial Economics
- Managerial Finance
- Managing People
- Marketing Management
- Statistical Methods for Business

Elective Subjects (1)

Complete one approved postgraduate subject.

DELIVERY OPTIONS

You can study full-time or part-time by choosing the following delivery options:

- Part-time options (study one, two, three or four subjects per semester)
- Evening classes (choose selected after hours classes)
- Intensive classes (study selected classes over two Friday-Sunday intensive weekends)

PROFESSIONAL OUTCOMES

The MBA experience is designed to be transformational, both professionally and personally. Most graduates strike out into entrepreneurial ventures, move into new industries, or return to their previous industries at higher management levels.

BBT GLOBAL LEADERSHIP MBA

Duration: 1 year 4 months full-time (4 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Minimum three years' management experience and a quality undergraduate degree from a recognised institution.

English options are being developed but students may undertake other existing subjects which are in English.

PROGRAM DESCRIPTION

Designed for global executives with more than three years' management experience and an interest in the economies of Japan and Asia in a global context, the BBT Global Leadership MBA provides a flexible and adaptive learning environment for students to enhance their skills and develop as global leaders. The program offers a combination of online and residential immersion experiences, with subjects in English (with options for some in Japanese). The focus is on allowing participants to develop effective and informed decision making frameworks, to think critically, to act and lead strategically, and to understand the importance of an innovative and entrepreneurial mindset.

- Effective Negotiation
- Effective Project Management
- Management Control Systems

Study Tour (2)

- Minimum two study tours to Bond University campus on the Gold Coast for intensive classes

GRADUATE CERTIFICATE OF GLOBAL LEADERSHIP

Duration: 4 months (1 semester)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree program at an approved institution.

PROGRAM DESCRIPTION

The Graduate Certificate of Global Business provides a flexible and adaptive approach for students to undertake a set of introductory subjects that contribute to the basic skills required of a global leader. The program offers a flexible online learning experience, with some subjects in Japanese and some in English, to allow participants to develop a core understanding and develop skills in decision making frameworks, for thinking critically and acting and leading strategically, and to understand the importance of acting innovatively and entrepreneurially - all in the context of Japanese executives working in a global environment.

PROGRAM STRUCTURE

Core subjects (4)

Choose four from a list of 22 approved subjects.

BOND BUSINESS COMMERCIALISATION CENTRE

The Commercialisation Centre builds tomorrow's innovative thought leaders, one by one. Focused on engagement across and beyond campus, the Centre combines Bond Business School resources with expertise from off-campus to ensure the relevance of its operations.

EXECUTIVE GRADUATE CERTIFICATE IN LEADERSHIP (EDUCATION)

Duration: 8 months part-time (2 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Domestic student with minimum eight years' work experience, including three years in management roles, evidence of prior learning through university or other post-secondary learning, two reports from professional referees and an interview with the Program Director may be required.

PROGRAM DESCRIPTION

The Graduate Certificate in Executive Leadership is designed for educators, middle managers and principals who have progressed or are wanting to move into leadership roles but do not have a formal business qualification. Designed to be flexible around work commitments, the program of four subjects offers an experiential learning approach. The two core subjects, which are focused on leadership and change management, will allow participants to marry their experiences as leaders in their career with frameworks to develop a greater understanding of effective leadership in a dynamic world. The two elective subjects provide the opportunity to personalise the course in specific areas of interest and skill building from a range of MBA subjects within the Bond Business School.

The program can be completed in eight months by studying two subjects per semester, or it can be spread over two years. The program is at Level 8 of the

Australian Qualifications Framework and completed subjects can be credited into the Master of Business Administration (Executive) program for participants who wish to progress with their studies.

PROGRAM STRUCTURE

Core subjects (2)

- Executive Leadership: Emerging Leadership Frameworks
- Executive Leadership: Leading Innovation

ASSISTANT PROFESSOR OF ENTREPRENEURSHIP

DR BADEN U'REN

Baden draws upon his industry and startup knowledge to deliver a practical and relevant educational experience to his students. He previously worked at NAB and QIC Private Equity and is a cofounder of two innovative businesses: one in ag-tech and the other in veterinary services. He heads up Bond's entrepreneurship activities and was instrumental in establishing an on-campus co-working space, a for-credit business accelerator and a study tour to Silicon Valley. Baden is dedicated to driving an entrepreneurship imperative through Australia's education system and has twice received national teaching awards for his endeavours.

TEACHING SUBJECTS

- Creating and Growing a Business
- Entrepreneurship and Innovation
- Business Model Generation

TEACHING AWARDS

- Australian Award for University Teaching (2008, 2016)
- Vice-Chancellor's Award for Outstanding Contribution to Student Learning (2016)
- Faculty Award for External Engagement (2014)

RESEARCH INTERESTS

Baden examines the ways in which entrepreneurship education, both inside the classroom and across the campus, contributes to entrepreneurial knowledge, commercialisation outcomes and graduate employability.

BEST THING ABOUT BOND

The day that Richard Branson arrived in his helicopter: we hosted him in an informal Q&A session with a packed theatre of wide-eyed Bondies, and he left with one of our entrepreneurship students bound for a music festival.

elective may choose an internship study tour or special topic.

PROFESSIONAL OUTCOMES

The Master of Financial Management prepares you for a financial management role within a corporation, consulting firm, accounting firm or entrepreneurial venture within the commercial sector or private practice.

PROFESSIONAL RECOGNITION

- Australian Securities & Investment Commission (RG146)
- Chartered Financial Analyst (CFA) Institute
- Financial Services Institute of Australia (FINSIA)

*Required for Australian Securities and Investment Commission RG 146 compliance (training of financial product advisers).

MASTER OF FINANCIAL MANAGEMENT (PROFESSIONAL)

CRICOS Course Code 077991G

Duration: 1 year 4 months plus 20 weeks
(92 weeks - 4 semesters plus 20 weeks)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an Australian Qualifications Framework Level 7 Bachelor degree in a field cognate to the proposed degree.

PROGRAM DESCRIPTION

The professional program follows the same structure as the Master of Financial Management program with an additional 20-week Work Integrated Learning component. Work Integrated Learning is a 45 credit point subject designed to promote and support learning, personal development and professional practice. The subject focuses on developing self-analysis and reflective learning skills, and applying theoretical solutions for practical workplace problems.

Electives

Postgraduate students with at least one elective may choose an internship study tour or special topic. Students have the opportunity to use their elective to specialise in

- Digital Business
- Big Data
- Marketing
- International Business

MASTER OF PHILOSOPHY

CRICOS Course Code 072092F

Duration: 2 years full-time
Starting: January, May, September

ENTRY REQUIREMENTS

A Bachelor's Degree with Honours in a relevant discipline, with evidence of the ability to conduct supervised research; or a qualification deemed equivalent by the Research Committee.

PROGRAM DESCRIPTION

The Master of Philosophy develops independent research skills and the ability to relate a specific research topic to a broad framework of knowledge. The program places a major emphasis on independent inquiry (initiative), a thorough understanding of domain specific knowledge, competence in research methodologies and on the ability to communicate research results. This program serves as a pathway to the Doctor of Philosophy (PhD).

PROGRAM STRUCTURE

Master candidates will be required to successfully complete three research methodology subjects, in the first year of candidature. A confirmation of candidature process occurs at the end of the first year of enrolment to evaluate progress and suitability to continue in the degree.

The dissertation should be a substantial study of an issue pertaining to the student's major field of study. The Bond Business School expects students to work closely with staff and be exposed to the research activities of the staff and other students. It would not be uncommon for the student and the supervisor to be co-authors in publications resulting from the student's dissertation.

SUPERVISION

Each student will be supervised by at least two appropriately qualified academic staff. The Bond Business School is responsible for approving the student's dissertation proposal prior to the examination process.

PROFESSIONAL OUTCOMES

The Master of Philosophy will provide you with the research skills for academic careers in the University sector or for roles in research-intensive organisations.

DOCTOR OF PHILOSOPHY

CRICOS Course Code 063150J

Duration: 4 years full-time

Starting: January, May, September

ENTRY REQUIREMENTS

A minimum first or upper second class undergraduate honours degree (equal to at least a grade point average of 80%), master's (honours) degree, master's by research degree, and / or corresponding demonstration of research capacity.

Master's coursework degrees do not normally satisfy academic requirements for direct entry into the doctoral program, however, a suitably completed thesis component may be considered.

PROGRAM DESCRIPTION

The Doctor of Philosophy develops independent research skills and the ability to relate a specific research topic to a broad framework of knowledge. The program places a major emphasis on independent enquiry, a thorough understanding of domain specific knowledge, competence in research methodologies and the ability to communicate research results.

PROGRAM STRUCTURE

Doctoral candidates may be required to successfully complete three research methodology subjects, in the first year of candidature. A confirmation of candidature process occurs at the end of the first year of enrolment to evaluate progress and suitability to continue in the degree.

The dissertation should be a major, substantially original, theoretical or empirical study of an issue pertaining to the student's major field of study. The Bond Business School expects students to work closely with staff and be exposed to the research activities of the staff and other students. It would not be uncommon for the student and the supervisor to be co-authors in publications resulting from the student's dissertation.

Each student will be supervised by at least two appropriately qualified academic staff. The Bond Business School is responsible for approving the student's dissertation proposal prior to the examination process.

PROFESSIONAL OUTCOMES

The Doctor of Philosophy will provide you with the research skills for academic careers in the university sector or for roles in research-intensive organisations.

GRADUATE CERTIFICATE IN SPORT MANAGEMENT

MEDICAL PROGRAM^

BACHELOR OF MEDICAL STUDIES (BMEDST)

CRICOS: 087932C

Duration: 2 years 8 months (8 semesters)

DOCTOR OF MEDICINE (MD)

CRICOS : 087933B

Duration: 2 years (6 semesters)

Duration: 4 years and 8 months full-time
(3 semesters per year) (14 semesters total)

Starting: May

ACADEMIC ENTRY REQUIREMENTS

Direct entry into the Medical Program^ is currently only open to Australian citizens, Australian permanent residents, holders of an Australian Humanitarian visa and New Zealand citizens (but not New Zealand permanent residents).

Applicants who have completed a relevant undergraduate degree at another institution may apply for entry into (the first of two sequential degrees in the Medical Program^) the Bachelor of Medical Studies.

Students that are eligible to graduate from the Bond University Bachelor of Biomedical Studies, Master of Occupational Therapy, Master of Nutrition and Dietetics or Doctor of Physiotherapy, meeting the minimum required GPA, will be eligible to be considered for selection to enter Year 2 of the Bachelor of Medical Studies (BMedSt).

Postgraduate applicants will be evaluated based on the following criteria:

1. CPA from a previous university degree completed within the last nine years, which must include Year 12 English, and Chemistry or Maths B or Physics, or an equivalent. Applicants who do not meet these requirements must complete an approved bridging course before their application can be considered.
2. Psychometric Testing
3. Structured Interview ranking

For full entry requirements visit bond.edu.au/medicine.

Applicants are selected through a rigorous assessment process based on outstanding academic achievement, in combination with a demonstrated ability to achieve graduate outcomes of knowledge and critical thinking, leadership, initiative and teamwork, communication skills, responsibility, ethical decision making skills, motivation and non-verbal reasoning.

Approximately 50% of applicants will be offered the opportunity to complete an online psychometric test based on their academic achievement. This test will incur a fee, to be paid by the applicant direct to the test provider. The results of this test will determine eligibility for being offered an interview.

Applicants who have been shortlisted will be required to attend an interview in person where their general suitability to medicine and preparedness to undertake a

highly demanding course will be examined. Applicants will be interviewed by individuals from medical and non-medical backgrounds who are trained in entry-style medicine interviews.

APPLICATION PROCESS

1. Applications must be lodged through QTAC (qtac.edu.au) and should include all required documentation.
2. Bond University will determine your eligibility to sit the psychometric test based on an assessment of your academic performance.
3. Bond University will invite shortlisted applicants to attend an on-campus interview.

PSYCHOMETRIC ASSESSMENT

Approximately 50% of eligible applicants will be invited to complete a compulsory online psychometric psychometric assessment. Applicants will be required to pay a fee to sit this test.

The results will identify approximately 50% of applicants who will be shortlisted and invited to attend an interview to gain selection into the Medical Program^.

DESCRIPTION

The Medical Program^ is comprised of two sequential degrees - the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students selected for entry into the Medical Program^ will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

The Medical Program^ is designed to equip graduates with the knowledge, skills and attributes that a doctor requires to safely and effectively practise medicine in today's complex healthcare environment.

The Medical Program^ is distinguished by its strong educational focus on case-based learning, evidence-based medicine and integrated clinical practice. Due to small class sizes, students learn in a highly personalised environment with state-of-the-art equipment.

Students benefit from a variety of teaching and learning systems, including case-based small group tutorials, problem-based learning, practical classes, clinical skills and laboratory training, self-directed learning, web-based and e-learning, interactive seminars and lectures. This contemporary approach to medical education ensures that learning relates directly to patient care and prepares graduates to assume a high level of responsibility.

The Medical Program^ is comprised of 14 semesters total over the two sequential degrees, or equivalent to 7 standard academic years in duration. However, with Bond's three semesters-per-year timetable and intensive clinical training periods, the Medical Program^ is completed in just 4 years and 8 months, with graduates then eligible to apply for hospital internships.

PROGRAM STRUCTURE

BACHELOR OF MEDICAL STUDIES

YEARS 1 - 3 'THE PRE-CLINICAL YEARS'

In the first two years (five semesters) in the Bachelor of Medical Studies (BMedSt) learning and teaching occurs mainly in small group sessions comprised of interactive cases through problem-based learning, as

[^]The Medical Program is comprised of two sequential degrees – the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a Medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

Refer to page 9
for instructions

well as clinical skills laboratories, simulation activities, community and clinical placements and a cultural immersion experience.

The program extensively uses a problem-based learning (PBL) approach, where each week introduces a clinical case around which the learning is integrated.

In the third year, students are located at the University Clinical Education and Research Centre at Robina Hospital. This enables students to have a full additional year immersed in the clinical environment and acts as an excellent transition from the campus based learning to the full immersion in the workplace in the MD component of the Medical Program[^].

Year 1 2 semesters

Year 1 commences with the molecular and cellular foundations of life and then guides learning through the first cycle of the body systems, arranged in generations. This cycle focuses on:

- Introducing the structure and function of discrete organs
- Psychological basis of normal human behaviour
- Sociological basis of the behaviours of populations

The foundations of an effective practitioner are explored through an introduction to conducting effective observations of people both healthy and ill. This involves the beginning of the development of the understanding of and the skills involved in effective interpersonal communication, group work and collaborative learning.

Collectively, integrated learning opportunities provide the foundations of:

- Awareness of the roles of the doctor and healthcare system
- The impact of illness on the patient, their family and society
- The ethical basis of patient-centred healthcare

Year 1 also includes an Indigenous focus, with a cultural immersion experience occurring in Semester 2 as part of Bond's innovative Aboriginal and Torres Strait Islander Health curriculum.

Year 2 3 semesters

Year 2 is framed around a second cycle through the body systems and focuses on:

- Relationships between structure and function, building complexity into an integrative systems focus
- Mechanisms of disease and infectious organisms
- Normal compensatory mechanisms for restoring normal function

Knowledge of psychosocial frameworks is deepened and broadened to explore the varied responses of individuals, groups, populations and cultures to disease as well as the exploration of psychosocial factors that contribute to disease and impact on patient healthcare, highlighting the complexities of health inequities.

The foundation knowledge and skills of a competent practitioner continue with a focus on history taking and physical examination of discrete systems. The ethical complexities of healthcare are then further explored inclusive of the legal framework for provision of healthcare and placements in healthcare settings will provide the context for introducing healthcare systems.

Year 3 3 semesters

In Year 3, the format of learning changes from facilitator guided, problem-based learning to clinician lead, case-based learning. Bond has developed the Bond Virtual Hospital © which is a virtual clinical learning environment where students work in small groups to diagnose and manage a range of clinical cases. At both the University campus and the Clinical Education and Research Centre, Bond has an accredited, advanced simulation facility that provides an authentic context to the procedural and clinical skills that students acquire in preparation for their clinical work in the final two years of the program.

Over the course of the year, students complete clinical rotations which mirror where they will be placed in the final two years of the curriculum. The rotations include General Practice, Medicine, Surgery, Mental Health, Child Health, Women's Health, Emergency and Critical Care. Students are also exposed to the clinical sciences of pathology and pharmacology and learn the principles of medical imaging.

The Centre for Research in Evidence-Based Practice is the leading research centre at Bond University. Research activity is focused on understanding the gaps between research evidence and its application to practice. In Year 3, students will have the opportunity to complete a course through this centre. They will learn from academics of international standing, and gain first-class skills in assessing evidence in medical practice. In addition, students complete research modules and written assessments that provide them with the foundation skills they need to complete their project requirements for the MD.

Please be aware that due to placement opportunities, the length of semesters may vary compared to the standard Bond academic calendar.

OUTCOMES

Students who complete the Bachelor of Medical Studies proceed directly into the Doctor of Medicine program.

DOCTOR OF MEDICINE YEARS 4 - 5 'THE CLINICAL YEARS'

The Doctor of Medicine (MD) component is an Extended Master's level program and is undertaken through clinical rotations in hospital and community healthcare settings, as well as face-to-face teaching at timetabled education sessions. During this time, students undertake a research or professional project, or a capstone experience and prepare a portfolio of their work.

[^]The Medical Program is comprised of two sequential degrees – the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a Medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

Year 4

3 semesters

Year 4 includes rotations through the following clinical disciplines:

- Child Health
- Medicine
- Mental Health
- Surgery
- Women's Health

In Training Assessment (ITA) is conducted throughout the year as well as end of year Written Assessment and Objective Structured Clinical Examinations (OSCEs). Students also collect the outcomes of their work in a portfolio.

Students will also plan their MD project, which will be undertaken in Year 5. The project involves a program of structured learning with independent or group research and practice based learning.

Students will be able to select one of three options:

1. A research-based project
2. A capstone experience
3. A professionally focused project.

Please be aware that due to placement opportunities, the length of semesters may vary compared to the standard Bond academic calendar.

Year 5

3 semesters

Year 5 includes rotations through the following clinical disciplines:

- Emergency Medicine
- General Practice
- Critical Care / Anaesthetics / Orthopaedics
- Selective (Students have the opportunity to select an area of sub-specialty interest)
- Elective / pre-internship rotation (Students have another opportunity to undertake further clinical placements either in Australia or overseas, which can be their final capstone experience).

In Training Assessment (ITA) is conducted throughout the year as well as end-of-year Written Assessment and Objective Structured Clinical Examinations (OSCEs). Students also submit their final portfolio at the end-of-year for points accrual.

Students will also complete their MD project during their elective or selective, which is either a research or professional project, or a capstone experience. The project will culminate in the submission of a final report and presentation at the end-of-year conference.

Please be aware that due to placement opportunities, the length of semesters may vary compared to the standard Bond academic calendar.

PROFESSIONAL OUTCOMES

Graduates of the sequential degrees (BMedSt and MD) will have the appropriate knowledge, attitudes and skills to function effectively as interns in Australian hospitals and will be ideally positioned to undergo further training in any of the Australasian specialty colleges.

Our previous Medical graduates have secured internships in hospitals across Australia and New Zealand.

PROFESSIONAL RECOGNITION

The Bachelor of Medical Studies and Doctor of Medicine degrees are accredited by the Australian Medical Council (AMC) ensuring that they meet or exceed the agreed national guidelines for medical education. Upon successful completion of both of the degrees, graduates are eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand.

BOND UNIVERSITY PATHWAYS INTO MEDICINE*

Domestic and International students eligible to graduate from the Bond University programs: the Bachelor of Biomedical Science (in the Pre-Health Professional major), the Master of Occupational Therapy, the Doctor of Physiotherapy or the Master of Nutrition and Dietetic Practice, meeting the minimum required GPA will be eligible to be considered for selection to enter Year 2 of the Bachelor of Medical Studies (BMedSt). Currently, this is the only pathway into the Bachelor of Medical Studies available to international students.

* Conditions apply please visit bond.edu.au/medicine

[^]The Medical Program is comprised of two sequential degrees – the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a Medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

MASTER OF NUTRITION AND DIETETIC PRACTICE

CRICOS Course Code 089734D

Duration: 2 years full-time (6 semesters)

Starting: May

ENTRY REQUIREMENTS

An undergraduate degree in health science or other related degree with at least two biochemistry subjects at second year level where first year chemistry is a prerequisite of these subjects and two physiology subjects also at second year level.

Eligible undergraduate programs at Bond University:

- Bachelor of Biomedical Science
- Bachelor of Exercise and Sports Science
- Bachelor of Health Sciences

PROGRAM DESCRIPTION

Bond University's Master of Nutrition and Dietetic Practice aims to produce dietitians with a difference who make a difference.

As a student dietitian at Bond University, you will benefit from interactive workshops with industry experts, personalised mentoring from academics, as well as exposure to food, health and business settings throughout the duration of the program. You will have the opportunity to develop specialist skills related to the practice of nutrition and dietetics through extensive professional practice placements.

Through your internships, you will develop competence in the areas of medical nutrition therapy, food service dietetics, and community and public health nutrition, plus an additional setting based on your area of dietetic interest. This may include sports nutrition, private practice, food industry, corporate health, food and health charities, aged care, nutrition communications and media, or paediatric nutrition.

This comprehensive program includes projects and activities that focus on the entrepreneurial practice of nutrition and dietetics to develop leadership, management, media and marketing skills.

During your studies, you will also undertake substantial research in nutrition and have the opportunity to graduate with an emerging research track record. In addition, you will complete an international nutrition project abroad to obtain a global perspective on nutrition and dietetics.

PROGRAM STRUCTURE

Please note that program structures will vary for each student, dependent on when their individual placements occur. The below is an example program structure.

You must complete all of the following subjects:

Semester 1

- Nutrition and Food Science
- Nutrition Assessment and Diagnosis
- Nutrition Communication and Behaviour
- Nutrition Issues and Priorities

Semester 2

- Clinical Dietetics A
- Food Service Dietetics

- Nutrition and Chronic Disease Management
- Public Health Nutrition Practice

Semester 3

- Clinical Dietetics B
- Evidence-Based Practice for Health Professionals
- Professional Placement Internship - Community and Public Health Nutrition
- Professional Placement Internship - Individual Case Management A

Semester 4

- Health Research Design and Planning
- Professional Placement Internship - Food Service Management
- Professional Placement Internship - Individual Case Management B
- Sports Nutrition

Semester 5

- Management and Leadership for Nutrition Professionals
- Nutrition Research Internship A*

Semester 6

- Nutrition Research Internship B*
- International Nutrition Practice

PROFESSIONAL OUTCOMES

The Master of Nutrition and Dietetic Practice program has been designed to produce nutrition professionals who are equipped with a unique set of knowledge, skills and experience in research and practice. Graduates of the program will be able to apply their skills and experience across a range of areas including clinical dietetics, private practice, food service management, public health nutrition, corporate health and wellness programs, sports nutrition, the food industry, nutrition in child care centres, schools and aged care facilities, as well as research.

PROFESSIONAL RECOGNITION

This program is currently provisionally accredited by the Dietitians Association of Australia (DAA). A graduate of this program is eligible to become a DAA member with dietetic qualifications, and to join the Accredited Practising Dietitian (APD) Program.

The University is required to maintain a current accreditation status as outlined in the DAA accreditation process which is outlined at daa.asn.au > Universities and recognition of qualifications > Accreditation of dietetic programs > Manual for accreditation of dietetic programs.

All enquiries regarding the progress of the program's accreditation review should be directed to the University's Dietetic Program Coordinator.

*30 credit point subject.

KEY FEATURES

- 24 weeks of professional placement work integrated learning
- Graduates of the program are eligible to become a DAA member with dietetic qualifications, and to join the Accredited Practising Dietitian (APD) Program
- Opportunity to complete an international nutrition project abroad

MOLLY WARNER

MASTER OF NUTRITION AND DIETETIC PRACTICE | ALUMNA

ACCREDITED PRACTISING DIETITIAN - MY NUTRITION CLINIC, ROBINA
RESEARCH DIETITIAN - BOND INSTITUTE OF HEALTH AND SPORT, ROBINA

"The whole way through my master's course, I worried about not knowing what I wanted to do when the course finished. I thought I had to choose one thing, when I really wanted to do everything. Ultimately, I learnt that the field of dietetics is so broad and varied that you don't need to follow a 'set route' to carve out your career - you just need to follow your interests.

I learnt to listen to the advice of others and put it into action. I was aware that people with more experience than me have learnt

from their mistakes and are a great help in preventing me from making those same errors.

Keeping doors of opportunity open was the best thing I could have done. I asked questions when I was curious and said 'yes' to the opportunities that aligned with my values."

”

MASTER OF OCCUPATIONAL THERAPY

CRICOS Course Code 090670E

Duration: 2 years full-time (6 semesters)

Starting: May, September

ENTRY REQUIREMENTS

A degree in health sciences or other related degree with a minimum GPA of 1.0 / 4.0 (equivalent to 4.0 / 7.0) and the equivalent of at least one semester of anatomy, one semester of physiology, and two semesters of psychology or sociology or behavioural science.

Applications should include all accompanying documentation, including academic transcript and subject outlines. Applicants who do not meet the prerequisite subject requirements may complete bridging subjects prior to entry.

PROGRAM DESCRIPTION

Bond University's Master of Occupational Therapy program is designed to produce highly competitive graduates with comprehensive clinical skills as well as possessing a solid business acumen and research experience.

It is the first occupational therapy master's in Australia to offer you the opportunity to complete a clinical research project or undertake business electives in preparation for a career in private practice. This degree is an extended Level 9 Master's program where you will engage in research training before specialising in one of two elective pathways:

- Clinically-focused Research Pathway - the clinically focused research pathway culminates in an individual research project that may be eligible for publication. This pathway prepares you for entry into higher research degrees and careers in research and academia, as well as bolstering research networks; or
- Business-focused Research Pathway - enables you to undertake business electives that will enable you to undertake management roles, and better prepare you to work in the growing private sector. The pathway culminates in an industry research project where you will apply both research and business skills.

You will be taught by academics and industry staff who are current practicing clinicians with up-to-date industry knowledge.

WORK EXPERIENCE AND INTERNSHIPS

You will have the opportunity to develop specialist skills related to the practice of occupational therapy through extensive professional practice placements in a variety of settings such as private practice, community and mental health services, aged care and hospitals. The program places a strong emphasis on practical experience with 1,000 hours of practice education across various clinical contexts. Clinical practice is embedded within the program as well as provided in block clinical placements.

All students will also engage in research, providing preparation for future research careers.

PROFESSIONAL OUTCOMES

The program aims to produce graduates with the comprehensive skills and knowledge to succeed as occupational therapists in both national and international healthcare environments, as well as possess the business acumen to compete in a healthcare setting of increasing privatisation.

Graduates of the program will be able to apply their experience across a wide range of areas including:

- Aged care
- Community health centres
- Independent living centres and rehabilitation facilities
- Mental health services
- Paediatrics
- Private practice
- Public and private hospitals
- Research
- Schools and tertiary education
- Workplace health

Graduates may be eligible to progress into further postgraduate research, leading to potential career options in research organisations and academia.

PROFESSIONAL OUTCOMES

The Master of Occupational Therapy program has been accredited with conditions by the Occupational Therapy Council of Australia and New Zealand. As a new program, these conditions ensure that the program is of a high standard. The program is also approved by the Occupational Therapy Board of Australia.

Our graduates are eligible to apply for registration with the Occupational Therapy Board of Australia and will be graduating from a program that has been developed to be recognised by the World Federation of Occupational Therapists.

MASTER OF SCIENCE BY RESEARCH (HEALTH SCIENCES)

CRICOS Course Code 073729K

Duration: 2 years full-time

Starting: January, May, September

ENTRY REQUIREMENTS

An undergraduate degree with honours in a relevant discipline, with evidence of the ability to conduct supervised research, or a qualification or combination of qualifications deemed to be equivalent by the Faculty Research Committee.

PROGRAM DESCRIPTION

The Master of Science by Research (Health Sciences) enables you to undertake supervised research studies in one or more of the Faculty of Health Sciences & Medicine's research areas and groups. It is an internationally recognised research degree and is a pathway to PhD studies.

Potential areas for research opportunity include:

- Anatomy
- Evidence-Based Practice
- Nutrition and Dietetics
- Genetics
- Health Professions Education
- Immunology
- Indigenous Health
- Medical Research
- Neuroscience
- Physiology / Pharmacology
- Physiotherapy
- Public Health
- Sports and Exercise Science
- Stem Cells
- Urology

Bond University research students have access to the specialist expertise of our internationally published academics as well as state-of-the-art facilities.

INFORMATION FOR PROSPECTIVE STUDENTS

Before seeking to apply, prospective master's by research and PhD students must seek contact with a potential supervisor. Applications will only be considered for enrolment where a supervisor is available. The proposed research must fit within the Faculty's strategic research plan and within an area of Faculty expertise.

Once a potential supervisor has been sourced, the following information is required in order for applications to be assessed:

- A detailed thesis proposal.
- University academic transcripts for all studies to date (undergraduate and postgraduate). If not already in English, these documents must be translated and certified by the translating body.
- University grading scale if applicable - the grading scale may be found on the reverse of the university academic transcript.
- A Certificate of Completion (Degree / Diploma) is required if the transcript does not indicate that the degree has been awarded / conferred. Both certified translated and untranslated copies of both transcripts and Certificate of Completion should be provided.
- A resume detailing previous work and study history.
- Two written references which should cover the candidate's abilities, key personal attributes and capabilities (a minimum of one external reference excluding Bond University will be required).
- International students previously instructed in a language other than English are required to provide certified translated and untranslated copies of both transcripts and Certificate of Completion.
- Applicants whose previous study was not completed in one of the countries listed where English is considered a first language, must provide documented evidence of the required level of proficiency in the English language.
- A budget proposal for all research supplies. A budget template is available by emailing hsmresearch@bond.edu.au.

PROFESSIONAL OUTCOMES

The Master of Science by Research (Health Sciences) provides you with research expertise for careers in the university, industry or research sectors.

Graduates may also wish to continue their studies with a Doctor of Philosophy program.

MASTER OF SPORTS SCIENCE

CRICOS Course Code 088314K

Duration: 1 year 4 months full-time (4 semesters)

Starting: May

ENTRY REQUIREMENTS

1. A Bachelor of Exercise and Sports Science degree or equivalent degree from a recognised institution that satisfies the following minimum academic entry criteria:

- Two semesters of Human Anatomy
- Two semesters of Human Physiology
- Two semesters of Biomechanics
- One semester of Research Design / Statistics
- One semester of Physiology of Exercise
- One semester of Exercise Prescription
- One semester of Exercise Testing

Transcripts of completion of primary degree and specific subject outlines need to be supplied with applications.

2. Successful performance at a selection interview.

PROGRAM DESCRIPTION

The Bond University Master of Sports Science has been developed in consultation with industry to meet the demand for high quality sports scientists with extensive practical experience, and an excellent understanding of advanced sports science practice.

The program is suitable for graduates in exercise and sports science aspiring to a career in high performance sport, or for established professionals seeking to move into specialist sports science service roles.

This unique program places a strong emphasis on comprehensive practical experience and industry immersion, including a two semester full-time professional internship under the mentorship of a sports scientist.

Completed in only 1 year and 4 months (4 semesters), the first two semesters are comprised of specialist on-campus coursework, followed by the internship which incorporates applied sports science / strength and conditioning practice and a research component.

The program will culminate with an oral presentation of the industry-based research project outcomes and the submission of a peer-reviewed manuscript that may be eligible for publication, providing an additional pathway for you to progress to further postgraduate research.

The program provides you with exposure to authentic high performance sports science learning both on campus and in the high performance sport industry. The coursework component is delivered primarily at the world-class Bond Institute of Health & Sport (BIHS), and the High Performance Training Centre that has been recognised by the National Strength and Conditioning Association (NSCA) by a 'Strength of America' Award, the only institution outside of the United States to have been awarded this award. Within these facilities you will gain exceptional, high-quality, practical experience in our high performance gym, health science and sports

science research laboratories. You will have access to specialised technology used in research to deliver a wide range of athlete testing and performance analysis. These facilities provide sports science testing and training services to a variety of elite and sub-elite athletes, providing an exceptional learning experience.

PROGRAM STRUCTURE

Semester 1 (Starts May)

- Performance Analysis in Sport
- Injury Prevention and Rehabilitation Principles and Practice
- Research Design for Sports Science

Semester 2

- Athlete Preparation Principles and Practice
- Managing Athlete and Team Dynamics
- Advances in Sports Science
- Research Analysis for Sports Science

Semester 3

- Sports Science Professional Placement 1
- Sports Science Research Project 1

Semester 4

- Sports Science Professional Placement 2
- Sports Science Research Project 2

PROFESSIONAL OUTCOMES

The Master of Sports Science will enable you to apply knowledge and practical experience in the areas of sport physiology, biomechanics, sport nutrition, sport psychology, strength and conditioning and performance analysis to pursue a career in sports science across all levels of national and international sport.

Possible career opportunities include, but are not limited to:

- Sports scientist / strength and conditioning specialist positions in professional sport, working with teams or individual athletes
- Sports scientist / strength and conditioning specialist positions in national and international sporting organisations
- Development officer for professional sporting and health orientated organisations
- Corporate and community health and fitness consultant
- Health promotion / lifestyle consultant
- Athletic / sports program coordinator

Successful graduates may be eligible to progress to further postgraduate research, leading to potential career options in research organisations and academia.

MASTER OF SPORTS SCIENCE | ALUMNUS

JOSH MORRISON

I WAS ABLE TO MAKE INDUSTRY CONNECTIONS AND BUILD STRONG RELATIONSHIPS WITH PROFESSIONALS

”

"When Professor Peter Reaburn mentioned the internship opportunity available to our Master's of Sports Science cohort I was instantly intrigued and put my name forward for the placement. I was successfully chosen for the placement - the internship was for the Oceania Cup Tournament where Australia versed Samoa, Fiji, and New Zealand in rugby games.

During this placement I was given the opportunity to help with physiotherapy screenings, strapping, gym sessions, rehab runs, supplementation, and recovery - all of which ensure that the athletes are able to train and play at an optimal intensity and reduce the risk of injury. This experience was invaluable and it was great to be able to apply some of the learnings I had acquired in class to a group of professional athletes.

Once the tournament was over I was asked to join the Australian team in Canberra at the Australian Institute of Sport for their pre-World Champions training camp. My main responsibilities throughout the tour were to collect GPS data for the athletes and analyse the data to reduce the risk of injury.

Following the training camp at the AIS, I joined the team and made the long journey to Tbilisi, Georgia. This internship provided me with hands on experience and enabled me to apply the knowledge I learnt at Bond University. I was able to make industry connections and build strong relationships with professionals."

DOCTOR OF PHILOSOPHY

CRICOS Course Code 063150J

Duration: 4 years full-time

Starting: January, May, September

ENTRY REQUIREMENTS

A bachelor's degree with honours (First Class or 2A) or a research master's degree in a relevant discipline, with evidence of the ability to conduct supervised research; or a qualification or combination of qualifications deemed to be equivalent by the Faculty Research Committee.

PROGRAM DESCRIPTION

The Doctor of Philosophy available in the Faculty of Health Sciences & Medicine, is a program of significant original research. During the course of the degree the candidate will further develop their specialist knowledge in the field, and become highly skilled with deep methodological capacity. Depending on the field of specialisation, the degree culminates in a final written thesis. The Doctor of Philosophy is an internationally recognised research degree and is a pathway to an academic or research career.

The Doctor of Philosophy allows you to undertake supervised research studies in one or more of the Faculty of Health Sciences & Medicine's research areas and groups.

Potential areas for research opportunity include:

- Anatomy
- Evidence-Based Practice
- Nutrition and Dietetics
- Genetics
- Health Professions Education
- Immunology
- Indigenous Health
- Medical Research
- Neuroscience
- Physiology / Pharmacology
- Physiotherapy
- Public Health
- Sports and Exercise Science
- Stem Cells
- Urology

Bond University research students have access to the specialist expertise of our internationally published academics as well as state-of-the-art facilities.

INFORMATION FOR PROSPECTIVE STUDENTS

Before seeking to apply, prospective PhD students must seek contact with a potential supervisor. Applications will only be considered for enrolment where a supervisor is available. The proposed research must fit within the Faculty's strategic research plan and within an area of Faculty expertise. Once a potential supervisor has been sourced, the following information is required in order for applications to be assessed:

- A detailed thesis proposal.
- University academic transcripts for all studies to date (undergraduate and postgraduate). If not already in English, these documents must be translated and certified by the translating body.
- University grading scale if applicable - the grading scale may be found on the reverse of the university academic transcript.

- A Certificate of Completion (degree / diploma) is required if the transcript does not indicate that the degree has been awarded / conferred. Both certified translated and untranslated copies of both transcripts and Certificate of Completion should be provided.
- A resume detailing previous work and study history.
- Two written references which should cover the candidate's abilities, key personal attributes and capabilities (a minimum of one external reference excluding Bond University will be required).
- International students previously instructed in a language other than English are required to provide certified translated and untranslated copies of both transcripts and Certificate of Completion.
- Applicants whose previous study was not completed in one of the countries listed where English is considered a first language, must provide documented evidence of the required level of proficiency in the English language.
- A budget proposal for all research supplies. A budget template is available by emailing hsmresearch@bond.edu.au.

PROFESSIONAL OUTCOMES

The Doctor of Philosophy provides you with research expertise as well as transferable skills that will prepare you for both academic and executive careers in academia, research and industry.

Graduates at this level will have expert, specialised cognitive, technical and research skills in a discipline area to independently and systematically generate original knowledge and understanding to make a substantial contribution to a discipline or area of professional practice.

DOCTOR OF PHYSIOTHERAPY

CRICOS Course Code 075478G

Duration: 2 years full-time (6 semesters)

Starting: May

ENTRY REQUIREMENTS

1. A Bachelor of Exercise and Sports Science, or Bachelor of Biomedical Science* degree from Bond University, or equivalent degree from a recognised institution with a cumulative GPA 2.0 / 4.0 or 5.0 / 7.0 or better.

Evidence of the following tertiary subject prerequisites:

- Two semesters of Human Anatomy
- Two semesters of Human Physiology
- One semester of Biomechanics
- One semester of Research Design / Statistics
- One semester of Physiology of Exercise
- One semester of Exercise Prescription

For more information please go to bond.edu.au/doctor-physiotherapy-prerequisites.

2. Successful performance at a selection interview.

PROGRAM DESCRIPTION

The Doctor of Physiotherapy offers an innovative problem based learning model of physiotherapy education to prepare entry level physiotherapists for their roles and responsibilities as first contact practitioners. The program integrates the clinical, pathological and related sciences with the physiotherapy knowledge, skills and professional

behaviours and attitudes required to examine, diagnose and treat physiotherapy clients.

The Doctor of Physiotherapy assists you to progressively develop and apply your knowledge, skills and professional attitudes and behaviour for physiotherapy practice and places a strong emphasis on clinical experiential learning with 50% of the program undertaken in a clinical context. The first 30 weeks of clinical practice addresses five core areas in both hospital and community settings and one elective. Variable experiences across the lifespan are sought in the clinical areas of:

- Orthopaedics
- Cardio-respiratory practice
- Out-patient musculoskeletal practice (hospital or private practice settings)
- Neurological and ortho-geriatric rehabilitation (hospital and community settings)
- Chronic disease and disability, whether paediatric or adult in context
- Paediatrics or women's / men's health, or private / sports practice

PROGRAM STRUCTURE

Semester 1

- Principles of Physiotherapy
- Musculoskeletal Physiotherapy I

Semester 2

- Cardiorespiratory Physiotherapy
- Musculoskeletal Physiotherapy Clinical Practice I
- Cardiorespiratory Physiotherapy Clinical Practice I

Semester 3

- Musculoskeletal Physiotherapy II
- Neurological Physiotherapy
- Musculoskeletal Physiotherapy Clinical Practice II
- Neurological Physiotherapy Clinical Practice

Semester 4

- Physiotherapy Leadership, Management and Advocacy
- Physiotherapy for Chronic Disease and Disability
- Maximising Human Potential

Semester 5

- Chronic Disease and Disability Clinical Practice
- Diversity and Life Stage Clinical Practice
- Evidence Based Practice Research (Part A)

Semester 6

- Evidence Based Practice Research (Part B)
- Clinical Internship (Elective) or
- Innovative and Global Practice in Physiotherapy (Elective)
- The Well Rounded Physiotherapist

WORK EXPERIENCE AND INTERNSHIPS

The first 30 weeks of clinical experience (6 x five week placements) take place in hospital and community settings working within the clinical areas outlined above. You will also have an option to complete a clinical internship (six weeks full-time or 12 weeks part-time) with an embedded research project in your final semester. This final semester is designed to ensure graduates are ideally prepared for entering the workforce.

PROFESSIONAL OUTCOMES

The Doctor of Physiotherapy produces work-ready graduates equipped with the knowledge, skills and professional attributes and behaviours to be eligible for registration as a physiotherapist in Australia.

PROFESSIONAL RECOGNITION

The Doctor of Physiotherapy program has been accredited as an entry-level program by the Australian Physiotherapy Council and is listed as an approved program of study by the Physiotherapy Board of Australia.

KEY FEATURES

- Up to 50% of the program is based on clinical experiential learning
- Upon graduation, you will be eligible for registration as a physiotherapist in Australia
- Taught in world-class facilities at the Bond Institute of Health & Sport

*The Bachelor of Biomedical Science is a pathway into the Doctor of Physiotherapy, pending certain subject selection

FACULTY OF LAW

bond.edu.au/law

Our Alumni at a glance

The **#1** job title

held by Faculty of Law alumni is

Lawyer

followed by Partner and Managing Director*.

At Bond, our academics have won some of the highest scholar and teaching awards in the country, delivering innovative law programs using world class teaching facilities. 51% of our alumni came to Bond from overseas.

With a student body from more than 20 countries, your international experience starts as soon as you set foot on campus.

*Bond University Alumni Database, 2017.

INDUSTRY RELATIONSHIPS

Bond University provides dedicated staff specifically for extensive, individual support to find internships and later employment. We maintain industry relationships with leading organisations. These include:

- Ashurst
- Clayton Utz
- Cronin Litigation Lawyers
- Law Right
- Wyndham Vacation Resorts, Asia Pacific Pty Ltd

JURIS DOCTOR

CRICOS Course Code 093923J

Duration: 2 years full-time (6 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

A prior degree in any discipline. Consideration is also given to relevant work experience and referees' reports on the suitability of the applicant for studying law.

PROGRAM DESCRIPTION

The Juris Doctor is a professional legal qualification which prepares you to become a legal professional in the corporate, government, community or not-for-profit sectors, both within Australia and overseas. Bond's Juris Doctor provides an engaging learning experience that both challenges students academically and prepares them practically for a legal career. Our unique Integrated Skills and Professionalism Program is embedded in the degree and focuses on core legal skills essential to the practice of law. These skills include:

- Dispute resolution and collaboration
- Legal ethics and professionalism
- Legal research and reasoning
- Legal writing and drafting
- Oral communication and advocacy

PROGRAM STRUCTURE

Compulsory Law Subjects (17)

The 17 compulsory subjects cover all the 'Priestley Eleven' areas required to practise law in Australia.

- Legal Foundations A
- Legal Foundations B
- Foundations of Private Law
- Foundations of Public and Criminal Law
- Contract Law A
- Tort Law
- Criminal Law
- Property Law A
- Constitutional Law
- Contract Law B
- Property Law B
- Corporate Law
- Equity
- Administrative Law
- Evidence
- Civil Dispute Resolution
- Legal Profession

Law Elective Subjects (7)

A wide range of law elective subjects are offered. Various specialisations are available, including:

- Canadian Law and Practice
- Corporate and Commercial Law and Practice
- Dispute Resolution
- Family Dispute Resolution
- International Business and Finance Law
- Legal Practice

INDUSTRY EXPERIENCE

Clinical legal subjects are available as electives, with students placed in legal settings, working under the supervision of a practising lawyer. The Faculty also encourages you to complete clerkships or internships with law firms during your holidays, but these do not form part of program requirements. Our career development specialists are available to assist you in your search for a suitable placement.

PROFESSIONAL OUTCOMES

Some students will plan to seek admission as a lawyer on the completion of their Juris Doctor, while others will be well established in their careers and will be undertaking the Juris Doctor in order to enhance their career options.

The Bond Law Juris Doctor is specifically designed to develop well rounded legal practitioners equipped with the practical legal skills to take leading positions in both the public and private sectors. Our graduates are employed in top tier law firms throughout Australia and the world (including the USA, United Kingdom, Canada, Scandinavia, France, China and Malaysia) as solicitors in private practice, associates to Supreme and High Court justices, barristers, government lawyers, in-house counsel academics and business leaders. You are encouraged to focus on the specific areas of study that you feel best serve your future career path.

PROFESSIONAL RECOGNITION

In conjunction with further study (Graduate Diploma in Legal Practice) and meeting the requirements of the Legal Practitioner Board of the various Australian states and territories, the Juris Doctor is an approved degree for purposes of admission as a legal practitioner in Australia. This degree can also be used to gain admission in certain other jurisdictions; however, you are advised to confirm admission requirements in the particular jurisdiction in which you wish to practise.

FURTHER POSTGRADUATE STUDY

Graduate Diploma in Legal Practice

The Graduate Diploma in Legal Practice, also known as Professional Legal Training (PLT), is the link between your law degree and becoming a practising lawyer in under a year. You'll also receive extensive, individualised help to find a placement.

KEY FEATURES

- Small class sizes creating a personalised learning environment
- An embedded Integrated Skills and Professionalism Program
- State-of-the-art facilities
- Opportunities to gain practical experience while studying
- An outstanding mooting program to further develop your legal skills

The Juris Doctor at Bond is a very practical law degree – to have a law program where you're constantly mooting, conducting client interviews and witness examinations, gives you a chance to put your learnings into practice as you're studying, so I think it prepares you for the competitive workforce.

PROFESSIONAL LEGAL TRAINING (PLT)

GRADUATE DIPLOMA IN LEGAL PRACTICE

Duration: On-campus PLT Program (full-time)
2 semesters (including 75 days of practical experience)
Starting: January, May, September
(CRICOS Course Code 063183M)

Duration: Online PLT Program (full-time*)
1 semester and 75 days of practical experience
Starting: January, May, September

Duration: Online PLT Program (part-time*)
2 semesters and 75 days of practical experience
Starting: January, May, September

ENTRY REQUIREMENTS

Bachelor of Laws or Juris Doctor qualification from an Australian Institution or equivalent.

PROGRAM DESCRIPTION

The Graduate Diploma in Legal Practice, also known as Professional Legal Training (PLT), is the link between your law degree and becoming a practising lawyer. The PLT program is an alternative to undertaking a legal traineeship for admission in Queensland. Our PLT program is a coursework degree that provides structured and supervised legal training, based on the Competency Standards for entry level lawyers developed by the admitting authorities and the Australasian Professional Legal Education Council (APLEC).

PROGRAM STRUCTURE

The PLT program has three components:

1. Practical Legal Training

The Practical Legal Training component is led by our PLT legal academics and offered every semester in each of our three different modes of delivery: on campus (full-time), online (full-time) or online (part-time). For on-campus students, this component is delivered in person and on campus. For online students it is delivered through intensive sessions on campus and learning online. Online students have the flexibility to complete their online learning from anywhere in Australia or overseas.

2. Practical Experience

This component requires that students complete 75 days of practical experience under the supervision of a practising lawyer in an approved law office or organisation in Australia. We have a dedicated and experienced career development professional to actively assist you in securing your work placement.

Practical experience can be undertaken in more than one law office or organisation and can be completed in part prior to or after the Practical Legal Training component. Credit for previous practical experience in approved supervised workplaces can be available for up to 40 days. Online part-time students can complete their work experience simultaneously with the Practical Legal Training component.

3. Continuing Practical Training

This component provides students with a further 75 hours of training and is completed online. It is undertaken concurrently with the Practical Experience component. It supports and draws on the knowledge and skills enhanced, honed and learned by students during their work in the Practical Legal Training and Practical Experience components. Students are provided with ongoing, one-on-one support from the PLT Director who acts as their mentor for this component.

PROFESSIONAL OUTCOMES

Successful completion of the Graduate Diploma in Legal Practice will enable you to apply for admission to legal practice in Australia (except South Australia or Northern Territory). You should contact the relevant admitting authority to ascertain the requirements for admission in your state or territory. Mutual recognition legislation also facilitates the process of practitioners admitted in one state seeking admission in other Australian jurisdictions.

For those seeking to specialise, the Graduate Diploma in Legal Practice will provide you with a two subject credit into the Bond Master of Laws (LLM).

*The Online PLT program is not CRICOS registered and therefore may not be available to student visa holders.

MASTER OF LAWS

CRICOS Course Code 084235G

Duration: 8 months full-time (2 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

A professional law qualification (Bachelor of Laws, Juris Doctor or equivalent).

PROGRAM DESCRIPTION

The Master of Laws is a postgraduate law qualification that provides maximum flexibility and choice with a wide range of specialist areas, meaning you can design your master's degree to suit your area of interest and professional needs. With a professional emphasis, and various specialisations in commercial law, international law and dispute resolution, the Bond LLM is designed to realise the educational and career aspirations of the global lawyer. Study on-campus, online or a combination of both.

PROGRAM STRUCTURE

Law Electives (8)

Students must choose eight subjects from the list of postgraduate law electives. There are no compulsory subjects.

Students may also wish to undertake a specialisation within their degree, by completing at least 40 credit points of subjects within an approved study area of the five specialisation categories.

- Canadian Law and Practice
- Corporate and Commercial Law and Practice
- Dispute Resolution
- Family Dispute Resolution
- International Business and Finance Law
- International Commercial Law and Dispute Resolution

MOOT COURTRoomS

Bond Law's Legal Skills Centre is the first of its kind to integrate the full complement of legal-based training facilities, with Moot Courtrooms and purpose-built suites designed for interviewing, dispute resolution and Professional Legal Training.

Students are able to opt out of a specialisation but must take all electives (total 80cp) from the postgraduate offerings in the Faculty of Law. No non-law electives are offered in this program.

If appropriate supervision is available, you may elect to replace two elective subjects with a minor dissertation upon approval by the Faculty of Law.

Online Specialisation

The International Commercial Law and Dispute Resolution specialisation is offered online and is available to domestic and offshore international students only. To be eligible for the specialisation, students must complete at least two (2) of the 20 credit point subjects.

PROFESSIONAL OUTCOMES

The Master of Laws provides a postgraduate qualification that broadens a graduate's or practitioner's knowledge in a chosen area of specialisation.

KEY FEATURES

- Provides students with the opportunity to pursue a specialisation in an area of interest
- Small class sizes that create a personalised learning environment
- Taught by outstanding academics with industry knowledge

MASTER OF LEGAL ADMINISTRATION

CRICOS Course Code 084236G

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

An undergraduate program in any discipline at an approved Australian institution or equivalent.

PROGRAM DESCRIPTION

The Master of Legal Administration offers students with a non-law undergraduate degree the opportunity to attain postgraduate qualifications in law. Students may complete a generalist degree or elect to specialise in a particular area of law, combined with up to four postgraduate subjects from other disciplines.

PROGRAM STRUCTURE

The Master of Legal Administration comprises 12 subjects:

Compulsory Law Subjects (4)

- Legal Foundations A
- Legal Foundations B
- Foundations of Private Law
- Foundations of Public and Criminal Law

with the option to complete a Law Specialisation in one of the following areas:

- Canadian Law and Practice
- Corporate and Commercial Law and Practice
- Dispute Resolution
- International Business and Financial Law

Law Electives (4)

Students must choose four subjects from the list of postgraduate law subjects.

General Electives (4)

Students in the Master of Legal Administration may also undertake additional law electives or take up to four postgraduate subjects from other disciplines, such as Business, Humanities, Social Sciences or Communication and Media.

PROFESSIONAL OUTCOMES

This degree does not qualify a graduate for admission as a legal practitioner; rather, the program is intended for students from other fields and professions who wish to supplement their knowledge of law in a particular area.

MASTER OF LAWS (BY RESEARCH)

CRICOS Course Code 063455C

Duration: 2 years full-time (6 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

A Bachelor of Laws, Juris Doctor or equivalent with an average of at least 65%.

An applicant may also be required to satisfy the Dean that they have the appropriate level of research skills to write a thesis of up to 50,000 words.

Admission is on the basis of an approved research proposal and availability of appropriate supervision.

PROGRAM STRUCTURE

The Master of Laws (by Research) program is a higher degree by research awarded for a 50,000 word thesis. It represents the student's ability to research, analyse and apply information and concepts to a body of knowledge or practice.

PROFESSIONAL OUTCOMES

For domestic students, the LLM provides a specialist postgraduate qualification to augment their practice of law in Australia. For international students, the program provides a wide range of international law, comparative law, IP law, trade law and dispute resolution subjects to broaden and internationalise an undergraduate law qualification.

DOCTOR OF LEGAL SCIENCE (RESEARCH)

CRICOS Course Code 093848D

Duration: 4 years full-time

Starting: January, May, September

ENTRY REQUIREMENTS

A Master of Laws degree, or a Bachelor of Laws or Juris Doctor degree with an Honours average of at least 75%.

An applicant may be required to satisfy the Dean that they have the appropriate level of research skills to undertake the qualification, which includes writing a thesis of between 50,000 and 80,000 words.

Admission is on the basis of an approved research proposal and availability of appropriate supervision.

Applicants are required to complete up to six subjects listed under the Master of Laws before undertaking the thesis component of the degree. Alternatively, admission may be awarded through transferring from the Master of Laws coursework to the thesis component of the research. Applicants will have achieved an average of at least 75 per cent in the Master of Laws coursework.

PROGRAM STRUCTURE

The Doctor of Legal Science (Research) program is a higher degree by research awarded for a combination of coursework and a thesis, that is a significant contribution to the knowledge or understanding of an aspect of law. The SJD will display the capacity of the student to carry out independent research at the appropriate level. SJD candidates are required to complete:

- Up to six electives chosen from the subjects listed under Master of Laws; and
- A written research thesis of between 50,000 and 80,000 words, depending on the number of course work subjects undertaken.

An eligible candidate with an awarded LLM will be entitled to the award of the SJD with the completion of fewer course work subjects in lieu of a longer thesis, up to 80,000 words.

PROFESSIONAL OUTCOMES

This doctorate qualification in law provides the candidate with the research skills for academic careers in the university sector or research roles in law or related fields.

DOCTOR OF PHILOSOPHY

CRICOS Course Code 063150J

Duration: 4 years full-time

Starting: January, May, September

ENTRY REQUIREMENTS

A Master of Laws degree, or a Bachelor of Laws or Juris Doctor degree with an Honours average of at least 75%.

Admission is on the basis of an approved research proposal and availability of appropriate supervision. In addition to the above requirements, candidates for the PhD degree must satisfy the Dean that they have the academic, research and writing abilities to produce a major thesis.

PROGRAM STRUCTURE

The Doctor of Philosophy program is a higher degree by research awarded for a substantial thesis that is a significant contribution to the knowledge or understanding of an aspect of law. The PhD will display the capacity of the student to carry out independent research at the appropriate level. PhD candidates are required to submit for external examination a written research thesis of between 80,000 and 100,000 words.

PROFESSIONAL OUTCOMES

This doctorate qualification in law provides the candidate with the research skills for academic careers in the university sector or research roles in law or related fields.

ARCHITECTURE

MASTER OF ARCHITECTURE

CRICOS Course Code 078184J

Duration: 1 year 4 months full-time (4 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Domestic applicants

- Completion of a Bond University Bachelor of Architectural studies at a credit average (GPA 2.0 / 4.0) and high quality portfolio of design work.
- Completion of an undergraduate degree program approved by the Australia New Zealand Architecture Program Accreditation Procedure (ANZAPAP) with a credit average (GPA 2.0 / 4.0 or 5.0 / 7.0) and high quality portfolio of design work.
- Applicants with a GPA lower than 2.0 / 4.0 are required to include a portfolio for further consideration for entry.

International applicants

A combination of qualifications deemed to be equivalent to an undergraduate degree program approved by the Australia New Zealand Architecture Program Accreditation Procedure (ANZAPAP) with a credit average (GPA 2.0 / 4.0 or 5.0 / 7.0) and high quality portfolio of design work.

PROGRAM DESCRIPTION

The Master of Architecture at the Abedian School of Architecture is designed to develop the emerging architectural professional to be fearless in their design ability, as well as possess the confidence to change the world and the habitats of the future through their creative design skills, imaginative vision, strategic thinking and technical proficiency. Delivered through a comprehensive design studio environment, current issues are debated through historical and philosophical architectural thought as well as contemporary states of urban habitation, challenges to a sustainable ecology and the ramifications of modern technology. Professional architectural concerns in law, contracts and ethics are also examined which prepare you for the commercial world of architectural practice. Research initiatives and studio workshops led by distinguished visiting professors and internationally recognised professionals will offer you an opportunity to develop your architectural skills on a global scale. In addition to the permanent Faculty of award winning practising architects and published scholars, the Abedian School of Architecture has developed partnerships with leading educators and professionals around the world who actively contribute to the architectural program. Some of

the School's associations include the Architectural Association School of Architects (UK), The Bartlett School of Architecture, University College (UK), the Pratt Institute (USA) and Virginia Tech (USA).

Architecture students expand their skills within the landmark Abedian School of Architecture building. The building was designed by Sir Peter Cook and Gavin Robotham of internationally renowned firm Cook Robotham Architecture Bureau (London). The unique design of the School provides an exceptional student learning experience. The concept of the building aims to foster collaboration at all levels from undergraduates to postgraduates where architectural students and academics can learn, create and exhibit in an open plan studio environment. The striking design of the building also acts as a teaching tool where theory comes to life, and will inspire innovation and creativity in students. The floating mezzanine, spiral staircases, and internal 'street' are just some of the design features that will excite and stimulate a contemporary education space in which students, industry and the community can learn, gather, and exhibit.

You will benefit from exclusive access to seven new design studios, computing and fabrication laboratories, a digital robotics laboratory, traditional workshops, reading and resource rooms, an atelier as well as impressive exhibition and event space.

The School is one of a select number of architectural schools worldwide that incorporate architectural design through digital robotics, providing opportunities in design as part of the new generation of architecture.

The Abedian School of Architecture features one of the lowest student to staff ratio of any architectural program offered in Australia, ensuring unrivalled access to state-of-the-art equipment, as well as personalised attention and mentoring.

PROGRAM STRUCTURE

Delivered within a comprehensive design studio environment, each studio contains a combination of practical and professional applications, theoretical studies, technical proficiency and conceptual rigour. Each studio forms a discrete stage in the master's sequence, culminating in a master's thesis studio in the final semester of study, bringing integrated skills and knowledge together.

ABEDIAN SCHOOL OF ARCHITECTURE

Architecturally designed learning space including design studios, reading and resource rooms, as well as an exhibition area.

Refer to page 9
for instructions

You will undertake a Faculty elective in the final semester to complement your thesis study.

You must complete the following subjects

- Architecture Design Studio 7
- Architecture Design Studio 8
- Architecture Design Studio 9
- Architecture Master's Thesis Studio
- Contemporary Architectural Theory
- Special Topics in Design Communication
- Special Topics in Design Technology
- Supervised Independent Study
- Professional Practice 1
- Professional Practice 2
- Research Analysis and Representation

Plus one of the approved Faculty electives from the Faculty of Society & Design list of postgraduate subjects. Architecture study tour options are available as an elective.

PROFESSIONAL OUTCOMES

This program academically prepares you to gain eligibility towards the professional status of architect in Australia or overseas. Professional status is governed at the State level in Australia. Professional registration overseas is governed by the relevant professional authority. The program enables you to enter the architecture profession in a variety of careers including architectural firms, government, construction, development, infrastructure and planning industries both in Australia and around the world.

The strategic thinking, visual creativity, public engagement, design and technology skills, strategic management and entrepreneurial outlook developed in this degree also provides you with a wide range of career opportunities in the creative industries. Many architectural graduates establish careers in design studios, virtual design, web and graphic design, fashion, advertising, industrial design, arts management and the visual arts.

The Master of Architecture also prepares you for a pathway into higher education. The research dissertation offers a level of academic work in a student portfolio that is typically acceptable in applications for doctoral studies.

PROFESSIONAL ACCREDITATION

The Australian Institute of Architects and the Board of Architects of Queensland currently recognise and accredit the Master of Architecture program. The Bachelor of Architectural Studies is recognised as the normal pathway to the Master of Architecture.

KEY FEATURES

- Thrive in our studio culture environment
- Be mentored and taught by national and internationally recognised industry professionals
- Become a professionally recognised Architect
- Learn in the award-winning Abedian School of Architecture building
- Overseas study tour opportunity

Refer to page 9
for instructions

GRADUATE CERTIFICATE IN BUILDING SURVEYING

Duration: 8 months (2 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of a Australian Qualifications Framework Level 7 Bachelor degree in a cognate discipline (including but not limited to building surveying, construction / building, quantity surveying, architecture, civil / structural engineering); or combination of qualifications deemed to be equivalent to any of the qualifications listed in the AIBS Scheme for Assistant Building Surveyor or Building Surveyor Limited, plus six months building surveying experience or three years' experience in general building; or a combination of qualifications and work experience deemed to be equivalent to the above, as determined by the Faculty.

PROGRAM DESCRIPTION

The Graduate Certificate in Building Surveying at Bond University offers you the chance to increase your knowledge in the field of building surveying while studying with world-class academics and experienced practitioners in one of Australia's most environmentally friendly buildings.

The Building Surveying program has been designed in consultation with the Australian Institute of Building Surveyors (AIBS) to ensure that the material covered is in all respects appropriate for people engaged in this field. Through this consultation graduates are assured that their qualifications meet the requirements of the profession.

The program comprises four specialist subjects which provide the core knowledge for buildings surveyors. This qualification allows students to articulate into the Graduate Diploma in Building Surveying and the Master of Building Surveying.

The building surveying profession employs experts who specialise in fields such as building legislation, technical codes and construction standards. Working alongside similar professionals including architects, engineers and project managers, building surveyors' skills and services are in high demand.

PROGRAM STRUCTURE

Foundation Subjects (4)

- Building Controls and Regulations
- Fire Engineering
- Planning and Assessment Processes
- Structures and Soil Mechanics

PROFESSIONAL OUTCOMES

Graduates of the Graduate Certificate in Building Surveying program will meet the requirements under the AIBS Framework for the accreditation of Building Surveyor Limited. The Building Professionals Board of NSW (BPB) will recognise graduates of the Graduate

Certificate in Building Surveying as meeting the requirements of Levels A2, A3 and A4.

Bond's Building Surveying programs have been accredited by both the AIBS and RICS, thereby satisfying the educational requirements for accreditation at the level of Building Certifier Level 2 or 3 in Queensland. Upon gaining accreditation with the AIBS or RICS, graduates may be eligible for a licence as a building certifier with the Queensland Building and Construction Commission. When licensed, graduates may practise in Queensland as building certifiers for local government or as private certifiers.

PROFESSIONAL RECOGNITION

The Graduate Certificate in Building Surveying is recognised by The Australian Institute of Building Surveyors (AIBS), The Royal Institutions of Chartered Surveyors (RICS), The Building Professionals Board of NSW (BPB) and The Queensland Building and Construction Commission (QBCC).

GRADUATE DIPLOMA IN BUILDING SURVEYING

Duration: 1 year (3 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of a Australian Qualifications Framework Level 7 Bachelor Degree in a cognate discipline (including but not limited to building surveying, construction / building, quantity surveying, architecture, civil / structural engineering); or completion of a Bond University Graduate Certificate of Building Surveying; or a combination of qualifications deemed to be equivalent to any of the qualifications listed in the AIBS Scheme for Assistant Building Surveyor plus two years' building surveying experience or six years' experience in general building.

PROGRAM DESCRIPTION

The Graduate Diploma in Building Surveying at Bond University offers you the chance to increase your knowledge in the field of building surveying while studying with world-class academics and experienced practitioners in one of Australia's most environmentally friendly buildings.

The program has been designed in consultation with the Australian Institute of Building Surveyors (AIBS) to ensure that the material covered is in all respects appropriate for people engaged in this field. Through this consultation graduates are assured that their qualifications meet the requirements of the relevant professional bodies.

The Graduate Diploma gives students the option of completing four additional elective subjects to be awarded the Master's qualification.

The building surveying profession employs experts who specialise in fields such as building legislation, technical

*Intensive Mode Delivery is a compact and time efficient way to complete a postgraduate qualification with minimal impact on professional and personal lifestyles. Subjects are generally delivered in either standard intensive or mixed mode. 'Standard Intensive Delivery' is generally scheduled over two weekends during the semester with two sets of three-day sessions per subject, usually scheduled Thursday to Saturday (approximately six to eight contact hours per day) with a break of four or five weeks between session one and session two of each subject. Mixed mode subjects will include a mixture of compulsory online activities and on-campus workshops. International students are required to be on campus every week. This will not impact the duration of the degree length.

codes and construction standards. Working alongside similar professionals including architects, engineers and project managers, building surveyors' skills and services are in high demand.

PROGRAM STRUCTURE

Foundation subjects (8)

- Building Controls and Regulation
- Building Pathology and Forensic Engineering
- Expert Witness and Dispute Resolution
- Fire Engineering
- Planning and Assessment Processes
- Real Estate Property Rights
- Structures and Soil Mechanics
- Sustainable Refurbishment and Retrofit

PROFESSIONAL OUTCOMES

Graduates of the Graduate Diploma in Building Surveying will be able to practise as accredited building surveyors and certifiers, and will meet the requirements under the AIBS Framework for the accreditation of Building Surveyor. The Building Professionals Board of NSW (BPB) will recognise graduates of the Graduate Diploma in Building Surveying as meeting the requirements of Levels A1, A2, A3 and A4 subject to ministerial approval.

Bond's building surveying programs have been accredited by both the AIBS and RICS thereby satisfying the educational requirements for accreditation at the level of Certifier Levels 1, 2 and 3 in Queensland. Upon gaining accreditation with the AIBS or RICS, graduates may be eligible for a licence as a building certifier with the Queensland Building and Construction Commission. When licensed, graduates may practise in Queensland as building certifiers for local government or as private certifiers.

PROFESSIONAL RECOGNITION

The Graduate Diploma in Building Surveying is recognised by The Australian Institute of Building Surveyors (AIBS), The Royal Institution of Chartered Surveyors (RICS), The Building Professionals Board of NSW (BPB) and The Queensland Building and Construction Commission (QBCC).

MASTER OF BUILDING SURVEYING

CRICOS Course Code 071287C

Duration: 1 year 4 months full-time (4 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree in a field cognate to the proposed degree (including but not limited to building surveying, construction / building, quantity surveying, architecture, civil / structural engineering); or Completion of a Bond University Graduate Diploma of Building Surveying; or a combination of qualifications deemed to be equivalent to any of the qualifications listed in the AIBS Scheme for Assistant Building Surveyor, plus two years' building surveying experience or six years' experience in general building.

PROGRAM DESCRIPTION

The Master of Building Surveying offers you the chance to increase your knowledge in the field of building surveying. You will study with world-class academics and experienced practitioners in one of Australia's most environmentally friendly buildings. The program comprises two specialist subjects plus six shared core subjects. Completion of a further four postgraduate elective subjects, selected from the suite of programs offered by the Faculty of Society & Design will allow you to graduate with a Master of Building Surveying.

PROGRAM STRUCTURE

This program enables you to exit after four subjects with a graduate certificate, after eight subjects with a graduate diploma or complete 12 subjects for a master's degree.

Foundation Subjects (12)

- Building Controls and Regulation
- Building Pathology and Forensic Engineering
- Expert Witness and Dispute Resolution
- Fire Engineering
- Planning and Assessment Processes
- Real Estate Property Rights
- Structures and Soil Mechanics
- Sustainable Refurbishment and Retrofit

Elective Subjects

Plus any four of the approved electives from the Faculty of Society & Design list of subjects.

PROFESSIONAL OUTCOMES

Master of Building Surveying graduates will, with sufficient relevant experience, be able to practise as accredited building surveyors and certifiers. The program has been designed in consultation with the Australian Institute of Building Surveyors (AIBS) to ensure that the material covered is appropriate for people engaged in this field. Through this consultation graduates are assured that their qualifications meet the requirements of the profession. Graduates of the Master of Building Surveying program will meet the requirements under the AIBS Framework for accreditation as a Building Surveyor. The Building Professionals Board of New South Wales (BPB) will recognise graduates of the Master of Building Surveying program as meeting the requirements of Levels A1, 2, 3 and 4.

Bond University's building surveying programs have been accredited by both the AIBS and the Royal Institution of Chartered Surveyors (RICS), thereby satisfying the educational requirements for accreditation at the level of Building Certifier Levels 1, 2 and 3 in Queensland. Upon gaining accreditation with the AIBS or RICS, graduates may be eligible for a licence as a building certifier with the Queensland Building and Construction Commission (QBCC). When licensed, graduates may practise in Queensland as building certifiers for local government or as private certifiers.

PROFESSIONAL RECOGNITION

This program is recognised internationally by the Royal Institution of Chartered Surveyors (RICS) and nationally by the Australian Institute of Building Surveyors (AIBS). The BPB in New South Wales and QBCC in Queensland recognise the AIBS accreditation.

*Intensive Mode Delivery is a compact and time efficient way to complete a postgraduate qualification with minimal impact on professional and personal lifestyles. Subjects are generally delivered in either standard intensive or mixed mode. 'Standard Intensive Delivery' is generally scheduled over two weekends during the semester with two sets of three-day sessions per subject, usually scheduled Thursday to Saturday (approximately six to eight contact hours per day) with a break of four or five weeks between session one and session two of each subject. Mixed mode subjects will include a mixture of compulsory online activities and on-campus workshops. International students are required to be on campus every week. This will not impact the duration of the degree length.

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree from an approved institution or qualification and / or relevant professional experience deemed equivalent by the Dean.

PROGRAM DESCRIPTION

The Graduate Certificate in Construction Practice program teaches students from varied backgrounds how to manage building projects - from physical execution to financial analysis and funding. The program focuses on the organisation and management of project resources (people, process, products, energy, finance, space) to deliver building projects on time, within cost, and of the defined scope and quality. The Graduate Certificate in Construction Practice allows you to matriculate into the Master of Construction Practice or is well suited to professionals who have been working in the industry and require a tangible qualification.

PROGRAM STRUCTURE

Required subjects (1)

- Understanding Buildings

Choose two (2) subjects from the following:

- Measurement 1
- Commercial Construction and Engineering
- Project Contract Administration
- Building Services
- Principles of Project Management
- Structures and Soil Mechanics

Plus one (1) from the following:

- Building Controls and Regulation
- Expert Witness and Dispute Resolution
- Real Estate Property Rights
- Sustainable Refurbishment and Retrofit
- Building Pathology and Forensic Engineering

PROFESSIONAL OUTCOMES

This degree will provide you with access to a wide range of career pathways in the construction industry. Opportunities include building and construction management, contract administration, site management, facilities management, building services, quantity surveying, property development, project management, cost management and general management. The skill sets obtained in this degree may also be applied to related sectors such as civil engineering and mining. Graduates will be equipped with a comprehensive knowledge of sustainable development, and will be able to seek work anywhere in Australia or around the world.

GRADUATE DIPLOMA IN CONSTRUCTION PRACTICE

CRICOS Course Code 093263G

Duration: 8 months (2 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

PROGRAM DESCRIPTION

The Graduate Diploma in Construction Practice teaches students from varied backgrounds how to manage building projects - from physical execution to financial analysis and funding. The program focuses on the organisation and management of project resources (people, process, products, energy, finance, space) to deliver building projects on time, within cost, and of the defined scope and quality. Upon completion of the Graduate Diploma, students may choose to complete an additional four subjects to gain a master's qualification.

PROGRAM STRUCTURE

Required subject (1)

- Understanding Buildings

Choose five (5) subjects from the following:

- Measurement 1
- Commercial Construction and Engineering
- Project Contract Administration
- Building Services
- Principles of Project Management
- Structures and Soil Mechanics

Choose two (2) subjects from the following:

- Building Controls and Regulation
- Expert Witness and Dispute Resolution
- Real Estate Property Rights
- Sustainable Refurbishment and Retrofit
- Building Pathology and Forensic Engineering

PROFESSIONAL OUTCOMES

This degree will provide you with access to a wide range of career pathways in the construction industry. Opportunities include building and construction management, contract administration, site management, facilities management, building services, quantity surveying, property development, project management, cost management and general management. The skill sets obtained in this degree may also be applied to related sectors such as civil engineering and mining. Graduates will be equipped with a comprehensive knowledge of sustainable development, and will be able to seek work anywhere in Australia or around the world.

*Intensive Mode Delivery is a compact and time efficient way to complete a postgraduate qualification with minimal impact on professional and personal lifestyles. Subjects are generally delivered in either standard intensive or mixed mode. 'Standard Intensive Delivery' is generally scheduled over two weekends during the semester with two sets of three-day sessions per subject, usually scheduled Thursday to Saturday (approximately six to eight contact hours per day) with a break of four or five weeks between session one and session two of each subject. Mixed mode subjects will include a mixture of compulsory online activities and on-campus workshops. International students are required to be on campus every week. This will not impact the duration of the degree length.

MASTER OF CONSTRUCTION PRACTICE

CRICOS Course Code 071288B

Duration: 1 year 4 months full-time (4 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree from an approved institution or qualification and / or relevant professional experience deemed equivalent by the dean.

PROGRAM DESCRIPTION

This program covers a comprehensive range of subjects in the field of construction practice, focusing on the management and delivery of complex construction projects. It also contains a strong sustainability theme which equips you with distinctive skills that are highly sought after in the built environment industry.

PROGRAM STRUCTURE

This program enables you to exit after four subjects with a Graduate certificate, after eight subjects with a graduate diploma or complete 12 subjects for a master's degree.

Master of Construction Practice (12)

To complete a Master of Construction Practice, you must complete all of the subjects below:

- Building Services
- Commercial Construction and Engineering
- Early Estimating and Cost Planning
- Integrated Measurement and Professional Practice
- Measurement 1
- Measurement 2
- Principles of Project Management
- Project Contract Administration
- Structures and Soil Mechanics
- Understanding Buildings

Plus two (2) subjects from the following options:

- Building Controls and Regulations
- Building Pathology and Forensic Engineering
- Expert Witness and Dispute Resolution
- Fire Engineering
- Integrated Project
- Real Estate Property Rights
- Sustainable Refurbishment and Retrofit

PROFESSIONAL OUTCOMES

This degree will provide you with access to a wide range of career pathways in the construction industry both in Australia and overseas. Opportunities include building and construction management, contract administration, site management, facilities management, building services, quantity surveying, property development, project management, cost management and general management. The skill sets obtained in this degree may also be applied to related sectors such as civil engineering and mining.

PROFESSIONAL RECOGNITION

Graduates of this degree are internationally recognised by the Royal Institution of Chartered Surveyors (RICS). They are also nationally accredited with the Australian Institute of Quantity Surveyors (AIQS), and will have met the educational requirement set by the Building Services Authority, Queensland for the granting of an Open Builders Licence.

KEY FEATURES

- Gain professional recognition by some of Australia's leading professional bodies
- Learn via intensive mode delivery
- Learn in the University's Sustainable Development Building Precinct promoting sustainable practices of tomorrow

MASTER OF CONSTRUCTION PRACTICE (PROFESSIONAL)

CRICOS Course Code 071289A

Duration: 1 year 4 months plus 20 weeks
(92 weeks - 4 semesters plus 20 weeks)

Intensive mode delivery*

Starting: January, May, September

The professional program follows the same structure as the Master of Construction Practice with an additional 20-week Professional Portfolio component.

Professional Portfolio is a 20 week, 45 credit point subject available to Master's (Professional) students in the Faculty of Society & Design. This subject is strongly experientially orientated and encourages students to develop their professional skills in a real world environment. The subject will ensure that students combine self-analysis and reflective learning skills with professional methodologies, so as to expand analytical and strategic thinking capabilities. It will provide practical experience for students to develop their skills in a profession relevant to their master's specialisation.

All students will complete a 2,000 word scoping document, and either undertake a work placement in Australia for 210 hours (which includes an employer's report) and reflective journal (up to 5,000 words) or complete a collaborative research project totalling up to 15,000 words or students may choose to undertake a workshop program. The workshop incorporates lab work, site visits, guest industry lectures and practical assessment pieces equating to the same number of hours as a placement. The workshop offers students a mix of classroom learning and practical experiences. Students will meet and work with industry professionals and undertake assessment that is practical in nature. All students will submit a final professional portfolio collection of documents, highlighting their practical and theoretical expertise in their profession of choice.

*Intensive Mode Delivery is a compact and time efficient way to complete a postgraduate qualification with minimal impact on professional and personal lifestyles. Subjects are generally delivered in either standard intensive or mixed mode. 'Standard Intensive Delivery' is generally scheduled over two weekends during the semester with two sets of three-day sessions per subject, usually scheduled Thursday to Saturday (approximately six to eight contact hours per day) with a break of four or five weeks between session one and session two of each subject. Mixed mode subjects will include a mixture of compulsory online activities and on-campus workshops. International students are required to be on campus every week. This will not impact the duration of the degree length.

PROJECT MANAGEMENT

GRADUATE CERTIFICATE IN PROJECT MANAGEMENT

Duration: 1 year (3 semesters)
Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree from an approved institution or qualifications and / or relevant professional experience deemed equivalent by the Dean.

PROGRAM DESCRIPTION

The Graduate Certificate in Project Management program provides you with a comprehensive business-ready foundation that will provide the knowledge and expertise to develop or further a career in project management in all areas of industry, government and the not-for-profit sectors.

PROGRAM STRUCTURE

Foundation subjects (4)

- Principles of Project Management
- Project Resource Planning
- Risk Management
- Project Finance and Procurement

PROFESSIONAL OUTCOMES

Project management skills and abilities are in high demand in both private and public sectors. There is a global shortage of project managers in most disciplines including construction and civil works, infrastructure procurement, engineering, information technology, finance, healthcare and education. This program provides graduates with the best practice foundations necessary to take advantage of the many opportunities available in this profession both in Australia and overseas. Students may articulate to either a postgraduate diploma or Master in Project Management qualification. Combined degrees are also available.

PROFESSIONAL RECOGNITION

The Graduate Certificate in Project Management is accredited by the Australian Institute of Project Management (AIPM). Bond University is a member of the Global Alliance for Project Performance Standards (GAPPS).

GRADUATE DIPLOMA IN PROJECT MANAGEMENT

Duration: 8 months (2 semesters)
Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

PROGRAM DESCRIPTION

The Graduate Diploma in Project Management provides a comprehensive business-ready foundation that will provide students from any background with the knowledge required to develop a career and expertise in project management. This qualification will provide career opportunities in all areas of industry, government and the not-for-profit sector. The Graduate Diploma in Project Management features four distinct study themes including strategy, sustainability, managing complex problems and teams, and virtual teams and global working.

PROGRAM STRUCTURE

Foundation subjects (8)

- Expert Witness and Dispute Resolution
- Principles of Project Management
- Project Finance and Procurement
- Project Resource Planning
- Project Portfolio and Program Management
- Risk Management

Elective Subjects

Plus any two of the approve electives from the Faculty & Design list of subjects.

PROFESSIONAL OUTCOMES

Today, project management skills and abilities are in high demand in both private and public sectors. The result is a global shortage of project managers at all levels in every field such as construction, information technology, finance, healthcare and related industries, property development and government. The Graduate Diploma in Project Management provides graduates with the theoretical foundation necessary to take advantage of the exciting opportunities available in this fast growing profession, both in Australia and overseas. Students may articulate to a Master of Project Management qualification. Combined degrees are also available.

PROFESSIONAL RECOGNITION

The Graduate Diploma in Project Management is accredited by the Australian Institute of Project Management (AIPM). Bond University is a member of the Global Alliance for Project Performance Standards (GAPPS).

MASTER OF PROJECT MANAGEMENT

CRICOS Course Code 078813G

Duration: 1 year 4 months full-time (4 semesters)
Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

Students should be aware that articulation from the Graduate Certificate in Project Management and Graduate Diploma in Project Management into the Master of Project Management requires attainment of a minimum cumulative percentage average of 65% at each articulation point.

*Intensive Mode Delivery is a compact and time efficient way to complete a postgraduate qualification with minimal impact on professional and personal lifestyles. Subjects are generally delivered in either standard intensive or mixed mode. 'Standard Intensive Delivery' is generally scheduled over two weekends during the semester with two sets of three-day sessions per subject, usually scheduled Thursday to Saturday (approximately six to eight contact hours per day) with a break of four or five weeks between session one and session two of each subject. Mixed mode subjects will include a mixture of compulsory online activities and on-campus workshops. International students are required to be on campus every week. This will not impact the duration of the degree length.

PROGRAM DESCRIPTION

This program provides a comprehensive business-ready foundation that will equip students from any background with the knowledge required to develop a career and expertise in project management. The program features four distinct study themes including strategy, sustainability, managing complex problems and teams, and virtual teams and global working. External speakers from leading investment banks, credit agencies and portfolio fund managers contribute to case studies and workshops.

PROGRAM STRUCTURE

This program enables you to exit after four subjects with a graduate certificate, after eight subjects with a graduate diploma or complete 12 subjects for a master's Degree.

Master of Project Management (11)

To complete a Master of Project Management, you must complete all of the following subjects:

- Expert Witness and Dispute Resolution
- Principles of Project Management
- Project Finance and Procurement
- Project Resource Planning
- Project Portfolio and Program Management
- Risk Management
- Research Methods in Humanities and Social Sciences
- Research Project (20 credit points)

Elective Subjects

Plus any three of the approve electives from the Faculty & Design list of subjects.

PROFESSIONAL OUTCOMES

This degree will provide you with the ability to progress into a wide range of career pathways in project management, in all areas of industry, government and the not-for-profit sector. Opportunities include architecture, construction, facilities management, IT and property, with skills also applicable to related sectors such as civil engineering and mining. You will be equipped with a comprehensive knowledge of sustainable practices, and will be able to seek work anywhere in Australia or around the world.

PROFESSIONAL RECOGNITION

Graduates of this degree are internationally recognised by the Royal Institution of Chartered Surveyors (RICS) and the Project Management Institute (PMI). They are also nationally accredited by the Australian Institute of Project Management.

MASTER OF PROJECT MANAGEMENT (PROFESSIONAL)

CRICOS Course Code 078182M

Duration: 1 year 4 months plus 20 weeks
(92 weeks - 4 semesters plus 20 weeks)
Starting: January, May, September

The professional program follows the same structure as the Master of Project Management with an additional 20-week Professional Portfolio component.

Professional Portfolio is a 45 credit point subject available to Master's (Professional) students in the Faculty of Society & Design. This subject is strongly experientially orientated and encourages students to develop their professional skills in a real world environment. The subject will ensure that students combine self-analysis and reflective learning skills with professional methodologies, so as to expand analytical and strategic thinking capabilities. It will provide practical experience for students to develop their skills in a profession relevant to their master's specialisation.

All students will complete a 2,000 word scoping document, and either undertake a work placement in Australia for 210 hours (which includes an employer's report) and reflective journal (up to 5,000 words), or complete a collaborative research project totaling up to 15,000 words. All students will submit a final professional portfolio collection of documents, highlighting their practical and theoretical expertise in their profession of choice. The Professional Portfolio subject cannot be commenced until the student has successfully completed all 12 subjects of the Master's component of the degree.

MASTER OF ARCHITECTURE / MASTER OF PROJECT MANAGEMENT

CRICOS Course Code 087931D

Duration: 2 years (6 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Domestic applicants

1. Completion of a Bond University Bachelor of Architectural studies at a credit average (GPA 2.0 / 4.0) and high quality portfolio of design work.
2. Completion of an undergraduate degree program approved by the Australia New Zealand Architecture Program Accreditation Procedure (ANZAPAP) with a credit average (GPA 2.0 / 4.0 or 5.0 / 7.0) and high quality portfolio of design work.
3. Applicants with a GPA lower than 2.0 / 4.0 are required to include a portfolio for further consideration for entry.

International applicants

A combination of qualifications deemed to be equivalent to an undergraduate degree program approved by the Australia New Zealand Architecture Program Accreditation Procedure (ANZAPAP) with a credit average (GPA 2.0 / 4.0 or 5.0 / 7.0) and high quality portfolio of design work.

PROGRAM DESCRIPTION

The combined Master's degree in Architecture and Project Management enables students interested in integrated design management to gain specialised knowledge related to the coordination of the design process and the maximisation of client satisfaction. The blurring of boundaries between the built environment disciplines is occurring as a response to client demand for more complex designs involving specialist

*Intensive Mode Delivery is a compact and time efficient way to complete a postgraduate qualification with minimal impact on professional and personal lifestyles. Subjects are generally delivered in either standard intensive or mixed mode. 'Standard Intensive Delivery' is generally scheduled over two weekends during the semester with two sets of three-day sessions per subject, usually scheduled Thursday to Saturday (approximately six to eight contact hours per day) with a break of four or five weeks between session one and session two of each subject. Mixed mode subjects will include a mixture of compulsory online activities and on-campus workshops. International students are required to be on campus every week. This will not impact the duration of the degree length.

knowledge. This is an international trend, underpinned by the need to deliver projects that ultimately reflect long life, loose fit and low energy. Graduates may also be involved in design optimisation, process re-engineering and value management within the confines of economic, social and environmental criteria.

The combined degree provides a unique blend of studio-based architectural design and generic project management problem-solving abilities. A distinct feature of this program takes place during the final semester where students undertake work-based learning in an integrated design environment either in Australia or overseas. Studies can be achieved within three calendar years part-time given recent or concurrent employment. Upon completion of the combined program, graduates receive two separate accredited degrees.

PROGRAM STRUCTURE

You must complete all of the following subjects:

- Architectural Studio 7
- Architectural Studio 8
- Architectural Studio 9
- Architecture Master's Thesis Studio
- Research Analysis and Representation
- Contemporary Architectural Theory
- Special Topics in Design Communication
- Special Topics in Design Technology
- Principles of Project Management
- Project Finance and Procurement
- Project Resource Planning
- Risk Management
- Expert Witness and Dispute Resolution
- Research Methods in Humanities and Social Sciences
- Professional Practice 1
- Professional Practice 2
- Integrated Design Management

PROFESSIONAL OUTCOMES

The combined program will be automatically accredited by the Australian Institute of Architects (AIA), Royal Institution of Chartered Surveyors (RICS) and Australian Institute of Project Management (AIPM). Graduates of this combined degree are also internationally recognised by the Project Management Institute (PMI).

MASTER OF BUSINESS ADMINISTRATION / MASTER OF PROJECT MANAGEMENT

CRICOS Course Code 085563F

Duration: 2 years (6 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Entry into the Master of Business Administration / Master of Project Management requires the following:

- Minimum three years' work experience
- Quality undergraduate degree from a recognised institution
- Cover letter detailing your career goals, future ambitions and experience
- Two professional referee reports
- Interview with the program director may be required

PROGRAM DESCRIPTION

The combined Master of Business Administration (MBA) and Project Management enables students interested in management, strategy and leadership to acquire expertise in the planning, implementation and management of projects.

Ranked #1 in Australia by students*, the Bond MBA is a generalist management program designed to blend industry-relevant research with practical applications.

The program is centred on the three pillars of leadership, global business and entrepreneurship. Bond MBA students are culturally and professionally diverse, deliberately so. Over 20 nationalities are represented providing students with cross-cultural experiences while they study, and a rich global network post-graduation. All new students attend a three-day Leadership Exercise at a mountain retreat and it is here that deep relationships start to be formed. Small class sizes and personalised attention from professors create a high-touch environment where students thrive.

The addition of Project Management skills enables graduates to access more strategic positions in their organisation and to be responsible for overseeing new initiatives involving the management of scope, time, cost and risk.

*2015 Australian Financial Review Boss MBA Rankings - Student Satisfaction

PROGRAM STRUCTURE

You must complete all of the following subjects:

- Accounting Principles
- Management Accounting and Strategy
- MBA Orientation
- Managerial Economics
- Entrepreneurship and Innovation
- Managerial Finance
- Business in the Global Economy
- Business Strategy
- Managing People
- Marketing Management
- Expert Witness and Dispute Resolution
- Risk Management
- Principles of Project Management
- Project Finance and Procurement
- Project Portfolio and Program Management
- Research Project
- Statistical Methods for Business

PROFESSIONAL OUTCOMES

Students graduate with a Master of Business Administration (MBA) and a Master of Project Management (MPM). Graduates of this combined degree are internationally recognised by the Project Management Institute (PMI).

MASTER OF COMMUNICATION / MASTER OF PROJECT MANAGEMENT

CRICOS Course Code 088315J

Duration: 2 years (6 semesters)

Intensive mode delivery**

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree in a field cognate to the proposed degree.

**Participants will receive 40 hours of combined lectures, discussion groups, case studies and workshops during contact hours per subject. International students are required to be on campus every week.

PROGRAM DESCRIPTION

The combined Master's degree in Communications and Project Management enables students interested in a career in corporate communications, public relations and strategic and cultural communication to acquire expertise in the planning, implementation and management of projects and programs. The addition of project and program management skills enables graduates to access more strategic positions in their organisation and to be responsible for overseeing new initiatives involving the management of scope, time, cost and risk.

Communications is also a key competency of project and program management, and it is therefore possible that students pursuing a project management career might wish to obtain a combined degree with communication. Students graduate with a Master of Communication and a Master of Project Management upon completion.

Graduates of this combined degree are internationally recognised by the Project Management Institute (PMI).

PROGRAM STRUCTURE

You must complete all of the following subjects:

- Research Methods in Humanities and Social Sciences
- Epistemology and Theory of Knowledge
- Relational Communication
- Strategic Organisational Communication and Leadership
- Public Relations Masterclass
- Social Media: Risks and Opportunities
- Human Communication Theory
- Advertising Masterclass: Brand Experience and Advanced Strategic Planning
- Principles of Project Management
- Project Finance and Procurement
- Project Resource Planning
- Risk Management
- Project Portfolio and Program Management
- Expert Witness and Dispute Resolution

In addition, you must also choose one of the following dissertation / elective options.

Option One

- Major Dissertation / Portfolio A
- Major Dissertation / Portfolio B

Option Two

- Minor Dissertation / Portfolio A
- Minor Dissertation / Portfolio B
- Plus any two Faculty of Society & Design Postgraduate subjects

MASTER OF CONSTRUCTION PRACTICE / MASTER OF PROJECT MANAGEMENT

CRICOS Course Code 086028K

Duration: 2 years (6 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

PROGRAM DESCRIPTION

The combined Master's degree in Construction Practice and Project Management enables students interested in being a construction project manager to gain specialised knowledge related to the delivery of complex buildings. Construction was the first and is still the dominant sector of the economy where project management is practised. It is also an international endeavour, where the cost and complexity of major buildings is ever increasing. Therefore, a combined understanding of the construction process together with the generic principles of successful management of scope, time, cost, risk, human resources, quality, procurement, stakeholders and environmental impact, and their balanced integration, is most valuable. Construction project managers demand salaries at the top of the professional range, and may be involved in commercial, residential, industrial and civil developments, including in the energy and resources sector.

Students graduate with a Master of Construction Practice and a Master of Project Management upon completion. This degree is internationally recognised by the Project Management Institute (PMI).

PROGRAM STRUCTURE

You must complete all of the following subjects:

- Understanding Buildings
- Measurement 1
- Structures and Soil Mechanics
- Principles of Project Management
- Project Contract Administration
- Building Services
- Commercial Construction and Engineering
- Measurement 2
- Integrated Measurement and Professional Practice
- Early Estimating and Cost Planning
- Project Finance and Procurement
- Risk Management
- Project Portfolio and Program Management
- Expert Witness and Dispute Resolution
- Research Methods in Humanities and Social Sciences
- Research Project
- Project Resource Planning

MASTER OF CRIMINOLOGY / MASTER OF PROJECT MANAGEMENT

CRICOS Course Code 088316G

Duration: 2 years (6 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree in a field cognate to the proposed degree.

PROGRAM DESCRIPTION

The combined Master's degree in Criminology and Project Management enables students interested in a career in crime prevention, justice and forensic issues to acquire expertise in the planning, implementation and management of projects and programs. The addition of project and program management skills enables graduates to access more strategic positions in their organisation and to be responsible for overseeing new initiatives involving the management of scope, time, cost and risk.

Students graduate with a Master of Criminology and a Master of Project Management upon completion. This combined degree is internationally recognised by the Project Management Institute (PMI).

PROGRAM STRUCTURE

You must complete all of the following subjects:

- Research Methods in Humanities and Social Sciences
- Epistemology and Theory of Knowledge
- Politically Motivated Violence
- Forensic Criminology
- Genocide: A Sociological and Criminal Approach
- Crime Analysis and Profiling
- Security and Strategy in the 21st Century
- Transnational Crime
- Principles of Project Management

- Project Finance and Procurement
- Project Planning
- Risk Management
- Project Portfolio and Program Management
- Expert Witness and Dispute Resolution

In addition, you must also choose one of the following dissertation / elective options.

Option One

- Major Dissertation / Portfolio A
- Major Dissertation / Portfolio B

Option Two

- Minor Dissertation / Portfolio A
- Minor Dissertation / Portfolio B
- Plus any two Faculty of Society & Design postgraduate subjects

MASTER OF INTERNATIONAL RELATIONS / MASTER OF PROJECT MANAGEMENT

CRICOS Course Code 088317G

Duration: 2 years (6 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree in a field cognate to the proposed degree.

PROGRAM DESCRIPTION

The combined Master's degree in International Relations and Project Management enables students interested in a career in diplomacy, international trade, government and business to acquire expertise in the planning, implementation and management of projects and programs. The addition of project and program management skills enables graduates to access more strategic positions in their organisation and to be responsible for overseeing new initiatives involving the management of scope, time, cost and risk.

Students graduate with a Master of International Relations and a Master of Project Management upon completion. This combined degree is internationally recognised by the Project Management Institute (PMI).

PROGRAM STRUCTURE

You must complete all of the following subjects:

- Research Methods in Humanities and Social Sciences
- Epistemology and Theory of Knowledge
- Politically Motivated Violence
- Diplomacy
- Political Economy of Global Development
- Genocide: A sociological and criminal approach
- Security and Strategy in the 21st Century
- Strategic Asia
- Principles of Project Management
- Project Finance and Procurement
- Project Resource Planning
- Risk Management
- Project Portfolio and Program Management
- Expert Witness and Dispute Resolution

In addition, you must also choose one of the following dissertation / elective options.

Option One

- Major Dissertation / Portfolio A
- Major Dissertation / Portfolio B

Option Two

- Minor Dissertation / Portfolio A
- Minor Dissertation / Portfolio B
- Plus any two Faculty of Society & Design postgraduate subjects

MASTER OF SPORT MANAGEMENT / MASTER OF PROJECT MANAGEMENT

CRICOS Course Code 085565D

Duration: 2 years (6 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

A bachelor degree in a discipline related to the diverse areas of project management or sport management including management, business, marketing, finance, accounting, law, public relations, exercise and sports science.

PROGRAM DESCRIPTION

The Master of Sport Management / Master of Project Management has been designed to equip students with the expertise in the planning, implementation and management of sporting projects and programs. The combination degree explores the professional challenges and opportunities for managers in the complex international sporting landscape from a grassroots level to elite professional sport organisations and events.

The addition of project management skills enables graduates to access more strategic positions in their organisation and to be responsible for overseeing new initiatives involving the management of scope, time, cost and risk. The program is designed to enhance the career opportunities of established professionals, as well as assist individuals aspiring to develop a career in this unique sector.

PROGRAM STRUCTURE

You must complete all of the following subjects:

- Expert Witness and Dispute Resolution
- Global Sports Law and Governance
- International Sport Business
- Managerial Finance
- Managing High Performance Sport
- Managing Sustainable Sport Events and Venues
- Principles of Project Management
- Project Finance and Procurement
- Project Portfolio and Program Management
- Project Resource Planning
- Research Methods in Humanities and Social Sciences
- Research Project
- Risk Management
- Social Media: Risks and Opportunities
- Strategic Organisational Communication and Leadership
- Strategic Sport Management
- Strategic Sport Marketing

PROFESSIONAL OUTCOMES

The combined degree provides you with the professional outcomes and opportunities of both individual degrees but at a reduced overall time and cost.

MASTER OF SUSTAINABLE ENVIRONMENTS AND PLANNING / MASTER OF PROJECT MANAGEMENT

CRICOS Course Code 086027M

Duration: 2 years (6 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

PROGRAM DESCRIPTION

The combined Master's degree in Sustainable Environments and Planning and Project Management enables students interested in being an environmental planner to gain specialised knowledge related to urban design and planning and its influence on the natural environment. Sustainable development is an important contemporary pursuit in the context of human-induced climate change. It is also an international endeavour, where finite resources are a limit to the growth of human settlements worldwide. Therefore, a combined understanding of the environmental planning process together with the generic principles of successful management of scope, time, cost, risk, human resources, quality, procurement, stakeholders and environmental impact, and their balanced integration, is most valuable. Environmental planners may be involved in design, planning, construction and operation of our built environment within the confines of acceptable habitat impact.

Graduates of this degree are internationally recognised by the Project Management Institute (PMI). The program is also accredited by the Planning Institute of Australia (PIA).

PROGRAM STRUCTURE

You must complete two subjects from the following list:

- Planning Theory and Ethics
- Regional Planning Policy and Practice
- Sustainable Communities
- Economics of Sustainable Development
- Environmental Management and Climate Change
- Project Resource Planning
- Urban Design and Place Making
- Planning and Assessment Processes
- Environmental Assessment
- Environmental Science Fieldwork
- Principles of Project Management
- Project Finance and Procurement
- Risk Management
- Project Portfolio and Program Management
- Expert Witness and Dispute Resolution
- Research Methods in Humanities and Social Sciences
- Research Project

MASTER OF VALUATION AND PROPERTY DEVELOPMENT / MASTER OF PROJECT MANAGEMENT

CRICOS Course Code 085564E

Duration: 2 years (6 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

PROGRAM DESCRIPTION

The combined Master's degree in Valuation and Property Development and Project Management enables students interested in being a development manager to gain specialised knowledge related to property investment and development. Development managers require project management skills to ensure that complex new initiatives are implemented as intended. It is also an international endeavour, where property development and urban renewal is relentless. Therefore, a combined understanding of the property investment process together with the generic principles of successful management of scope, time, cost, risk, human resources, quality, procurement, stakeholders and environmental impact, and their balanced integration, is most valuable. Development managers must know how to assess risks, and take them where appropriate, and may be involved in commercial, residential, industrial and civil developments, often involving large-scale projects. Students graduate with a Master of Valuation and Property Development and a Master of Project Management upon completion. Graduates of this degree are internationally recognised by the Project Management Institute (PMI).

PROGRAM STRUCTURE

You must complete two subjects from the following list:

- Property Development and Feasibility Analysis
- Corporate Real Estate
- Project Finance and Procurement
- Property Investment and Valuation
- Real Estate Investment Trust Analysis
- Real Estate Property Rights
- Risk Management
- Principles of Project Management
- Project Resource Planning
- Project Portfolio and Program Management
- Expert Witness and Dispute Resolution
- Research Methods in Humanities and Social Sciences
- Research Project

In addition, students must complete four electives. The following are recommended (and required for API accreditation):

- Commercial Valuation
- Specialist and Statutory Valuation
- Planning and Assessment Processes
- Understanding Buildings

GRADUATE CERTIFICATE OF SUSTAINABLE ENVIRONMENTS AND PLANNING

CRICOS Course Code 079534F

Duration: 4 months (1 semester)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

PROGRAM DESCRIPTION

The Graduate Certificate of Sustainable Environments and Planning provides two specialisations: Environmental Management or Urban Design and Planning.

The Environmental Management specialisation provides an in-depth examination of environmental management, including field work. The content is globally focused, providing qualifications that are in demand worldwide. Students specialising in Environmental Management may apply for a postgraduate industry internship in the final semester of the program. This includes the option of being involved in a client based environmental management capstone project or research dissertation.

The Urban Design and Planning curriculum equips graduates with the theoretical and practical skills required to undertake the design, appraisal and management of urban and regional developments. With this qualification, professionals from a built environment background will be able to undertake urban planning and development at a professional level.

PROGRAM STRUCTURE

You must complete four (4) of the following subjects:

- Environmental Assessment
- Environmental Management and Climate Change
- Environmental Science Fieldwork
- Planning and Assessment Processes
- Planning Theory and Ethics
- Project Resource Planning
- Regional Planning Policy and Practice
- Sustainable Communities
- Urban Design and Place Making
- Economics of Sustainable Development

PROFESSIONAL OUTCOMES

The Graduate Certificate of Sustainable Environments and Planning will provide you with access to a wide range of career pathways in the natural and built environments. Graduates will be equipped with the knowledge and practical experience required to be sustainability professionals in business, industry, government, consulting firms and non government organisations.

Graduates can progress into a wide range of careers in mining and energy, fisheries and agriculture, tourism, property, community infrastructure, city and regional planning, development assessment, transportation, strategic or social planning or urban design.

Graduates of this program will be equipped with a comprehensive knowledge of sustainable environments, and will be able to seek work anywhere in Australia or around the world.

PROFESSIONAL RECOGNITION

Graduates of this degree are internationally recognised by the Royal Institution of Chartered Surveyors (RICS). Graduates who have obtained a cognate undergraduate degree and complete all requisite subjects in the Urban Design and Planning specialisation, may also be eligible to be accredited by the Planning Institute of Australia (PIA).

At Bond University it's a cultural value to equip the students to be the best they can be in the workplace for a career that's nothing short of spectacular.

PROFESSOR ALAN PATCHING

SUSTAINABLE ENVIRONMENTS AND PLANNING

GRADUATE DIPLOMA OF SUSTAINABLE ENVIRONMENTS AND PLANNING

CRICOS Course Code 079535E

Duration: 8 months (2 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

PROGRAM DESCRIPTION

The Graduate Diploma of Sustainable Environments and Planning provides two specialisations: Environmental Management or Urban Design and Planning.

The Environmental Management specialisation provides an in-depth examination of environmental management, including field work. The content is globally focused, providing qualifications that are in demand worldwide. Students specialising in Environmental Management may apply for a postgraduate industry internship in the final semester of the program. This includes the option of being involved in a client based environmental management capstone project or research dissertation.

The Urban Design and Planning curriculum equips graduates with the theoretical and practical skills required to undertake the design, appraisal and management of urban and regional developments. With this qualification, professionals from a built environment background will be able to undertake urban planning and development at a professional level.

PROGRAM STRUCTURE

If you have obtained a cognate undergraduate degree and seek accreditation by the Planning Institute of Australia (PIA) you must complete the following eight subjects:

- Economics of Sustainable Development
- Environmental Management and Climate Change
- Planning Theory and Ethics
- Project Resource Planning
- Regional Planning Policy and Practice
- Sustainable Communities

Plus two (2) elective subjects from the Faculty of Society & Design.

If you are not seeking accreditation from PIA you may complete eight subjects from the following:

- Economics of Sustainable Development
- Environmental Assessment
- Environmental Management and Climate Change
- Environmental Science Fieldwork
- Planning and Assessment Processes
- Planning Theory and Ethics
- Project Planning and Scheduling
- Regional Planning Policy and Practice
- Sustainable Communities
- Urban Design and Place Making

The Graduate Diploma of Sustainable Environments and Planning will provide you with access to a wide range of career pathways in the natural and built environments. Graduates will be equipped with the knowledge and practical experience required to be sustainability professionals in business, industry, government, consulting firms and non government organisations.

Graduates can progress into a wide range of careers in mining and energy, fisheries and agriculture, tourism, property, community infrastructure, city and regional planning, development assessment, transportation, strategic or social planning or urban design.

Graduates of this program will be equipped with a comprehensive knowledge of sustainable environments, and will be able to seek work anywhere in Australia or around the world.

PROFESSIONAL RECOGNITION

The Graduate Diploma of Sustainable Environments and Planning is accredited with the Planning Institute of Australia (PIA).

MASTER OF SUSTAINABLE ENVIRONMENTS AND PLANNING

CRICOS Course Code 079538B

Duration: 1 year 4 months full-time (4 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

PROGRAM DESCRIPTION

This program provides two specialisations: Environmental Management or Urban Design and Planning.

The Environmental Management specialisation provides an in-depth examination of environmental management, including field work. The content is globally focused, providing qualifications that are in demand worldwide.

The Urban Design and Planning curriculum equips you with the theoretical and practical skills required to undertake the design, appraisal and management of urban and regional developments. With this qualification, professionals from a built environment background will be able to undertake urban planning and development at a professional level.

PROGRAM STRUCTURE

This program enables you to exit after four subjects with a graduate certificate, after eight subjects with a graduate diploma or complete 12 subjects for a master's degree.

*Intensive Mode Delivery is a compact and time efficient way to complete a postgraduate qualification with minimal impact on professional and personal lifestyles. Subjects are generally delivered in either standard intensive or mixed mode. 'Standard Intensive Delivery' is generally scheduled over two weekends during the semester with two sets of three-day sessions per subject, usually scheduled Thursday to Saturday (approximately six to eight contact hours per day) with a break of four or five weeks between session one and session two of each subject. Mixed mode subjects will include a mixture of compulsory online activities and on-campus workshops. International students are required to be on campus every week. This will not impact the duration of the degree length.

Master of Sustainable Environments and Planning (12)

To complete a Master of Sustainable Environments and Planning, you must complete all of the following subjects:

- Economics of Sustainable Development
- Environmental Assessment
- Environmental Management and Climate Change
- Environmental Science Fieldwork
- Planning and Assessment Processes
- Planning Theory and Ethics
- Regional Planning Policy and Practice
- Research Project
- Sustainable Communities
- Urban Design and Place Making

Plus two electives from the postgraduate subject offerings in the Faculty of Society & Design.

PROFESSIONAL OUTCOMES

This degree will provide you with access to a wide range of career pathways in the natural and built environments. You will be equipped with the knowledge and practical experience required to be sustainability professionals in business, industry, government, consulting firms and non-government organisations. Graduates of this degree are internationally recognised by the Royal Institution of Chartered Surveyors (RICS). Graduates who have obtained a cognate undergraduate degree and complete all requisite subjects in the Urban Design and Planning specialisation, may also be eligible to be accredited by the Planning Institute of Australia (PIA).

MASTER OF SUSTAINABLE ENVIRONMENTS AND PLANNING (PROFESSIONAL)

CRICOS Course Code 080639J

Duration: 1 year 4 months plus 20 weeks
(92 weeks - 4 semesters plus 20 weeks)
Intensive mode delivery*

Starting: January, May, September

The professional program follows the same structure as the Master of Sustainable Environments and Planning program with an additional 20-week Professional Portfolio component.

Professional Portfolio is a 45 credit point subject available to Master's (Professional) students in the Faculty of Society & Design. This subject is strongly experientially orientated and encourages students to develop their professional skills in a real world environment. The subject will ensure that students combine self-analysis and reflective learning skills with professional methodologies, so as to expand analytical and strategic thinking capabilities. It will provide practical experience for students to develop their skills in a profession relevant to their master's specialisation.

All students will complete a 2,000 word scoping document, and either undertake a work placement in Australia for 210 hours (which includes an employer's report) and reflective journal (up to 5,000 words), or complete a collaborative research project totaling up to 15,000 words. All students will submit a final professional portfolio collection of documents, highlighting their practical and theoretical expertise in their profession of choice. The Professional Portfolio subject cannot be commenced until the student has successfully completed all 12 subjects of the Master's component of the degree.

VALUATION AND PROPERTY DEVELOPMENT

GRADUATE CERTIFICATE OF VALUATION AND PROPERTY DEVELOPMENT

CRICOS Course Code 085558C

Duration: 4 months (1 semester)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree from an approved institution or qualifications and / or relevant professional experience deemed equivalent by the Dean.

PROGRAM DESCRIPTION

The Graduate Certificate of Valuation and Property Development is designed to prepare students with a knowledge base and technical skills for careers within property related industries and professions. The application of the knowledge and skills developed in the program will allow graduates to demonstrate autonomy, expert judgement, adaptability and responsibility as a practitioner across a range of career paths in property related fields such as investment, finance, property management and property research. The attributes gained from this certificate will allow you to work in the valuation and property development sector in Australia and around the world.

PROGRAM STRUCTURE

Foundation subjects (2)

You must complete two subjects from the following list:

- Property Development and Feasibility Analysis
- Corporate Real Estate
- Project Finance and Procurement
- Property Investment and Valuation
- Real Estate Finance and Taxation
- Real Estate Investment Trust Analysis
- Real Estate Property Rights
- Risk Management

Electives (2)

Choose any two elective subjects offered by the Faculty of Society & Design.

PROFESSIONAL OUTCOMES

Graduates will have specialised knowledge and skills for professional practice in the area of Valuation and Property Development. They will be able to

demonstrate an integrated understanding of a complex body of property knowledge and possess skills to enable them to offer cognitive and technical skills in this field. Graduates should be able to interpret and transmit knowledge, skills and ideas to specialist and non-specialist audiences

GRADUATE DIPLOMA OF VALUATION AND PROPERTY DEVELOPMENT

CRICOS Course Code 085560J

Duration: 8 months (2 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

PROGRAM DESCRIPTION

The Graduate Diploma of Valuation and Property Development is designed to prepare students with a strong knowledge base and technical skills for careers within property related industries and professions. The application of the knowledge and skills developed in the program will allow graduates to demonstrate autonomy, expert judgement, adaptability and responsibility as a practitioner across a range of career paths in property related fields such as investment, finance, property management and property research. The attributes gained from the Graduate Diploma of Valuation and Property Development will allow you to work in the property sector in Australia and around the world.

PROGRAM STRUCTURE

Graduate Diploma of Valuation and Property Development (8)

Select four (4) of the following subjects:

- Property Development and Feasibility Analysis
- Corporate Real Estate
- Project Finance and Procurement
- Property Investment and Valuation
- Real Estate Finance and Taxation
- Real Estate Investment Trust Analysis
- Real Estate Property Rights
- Risk Management

Plus select four (4) elective subjects offered by the Faculty of Society & Design

Property Valuation Specialisation (8)

Students with a cognate undergraduate degree who complete the following Property Valuation subjects will qualify for registration with the Australian Property Institute as a Certified Practising Valuer with the Valuers Registration Board of Queensland, and New South Wales Fair Trading (conditional on meeting professional practice requirements).

You must select (compulsory for API CPV accreditation):

- Commercial Valuation
- Specialist and Statutory Valuation
- Planning and Assessment Processes
- Understanding Buildings

Plus two (2) subjects from choice of following three (3):

- Real Estate Finance and Taxation
- Real Estate Investment Trust Analysis
- Corporate Real Estate

Plus two (2) subjects from choice of following three (3);

- Property Investment and Valuation
- Real Estate Property Rights
- Property Development and Feasibility Analysis

PROFESSIONAL OUTCOMES

Graduates will have specialised knowledge and skills for professional practice in the area of Valuation and Property Development. They will be able to demonstrate an integrated understanding of a complex body of property knowledge and possess skills to enable them to offer expert, specialised cognitive and technical skills in this field. They will be able to analyse critically, reflect upon and synthesise complex property information, problems and concepts. Graduates should be able to interpret and transmit knowledge, skills and ideas to specialist and non-specialist audiences

PROFESSIONAL RECOGNITION

Valuation and Property Development graduates are recognised by the Australian Property Institute (API). The API accreditation allows Valuation and Property Development students to apply for registration as Certified Practising Valuers with New South Wales Fair Trading and the Valuers Registration Board Queensland upon graduation (conditional on meeting professional practise requirements). Non property valuation graduates are endorsed for API Associate Membership and Certified Property Practitioner (CPP) certification.

MASTER OF VALUATION AND PROPERTY DEVELOPMENT

CRICOS Course Code 085561G

Duration: 1 year 4 months full-time (4 semesters)

Intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree at an approved institution.

PROGRAM DESCRIPTION

The Master of Valuation and Property Development provides you with a wide range of skills that can be applied to global property markets. This program is designed to equip you with strong knowledge and advanced technical skills applicable to a variety of career paths such as investment, finance, asset management and research. This degree also provides the opportunity to specialise in property valuation.

PROGRAM STRUCTURE

This program enables you to exit after four subjects with a graduate certificate, after eight subjects with a graduate diploma or complete 12 subjects for a master's Degree.

Master of Valuation and Property Development (12)

- Corporate Real Estate
- Property Development and Feasibility Analysis
- Project Finance and Procurement
- Property Investment and Valuation

*Intensive Mode Delivery is a compact and time efficient way to complete a postgraduate qualification with minimal impact on professional and personal lifestyles. Subjects are generally delivered in either standard intensive or mixed mode. 'Standard Intensive Delivery' is generally scheduled over two weekends during the semester with two sets of three-day sessions per subject, usually scheduled Thursday to Saturday (approximately six to eight contact hours per day) with a break of four or five weeks between session one and session two of each subject. - Minor Dissertation / Portfolio A
- Minor Dissertation / Portfolio B
- Plus any two Faculty of Society & Design Postgraduate subjects

DISSERTATION / PORTFOLIO TOPICS

The Faculty of Society & Design has highly skilled academic staff who can provide supervision to students in many different research areas. For a full list of the dissertation topics offered in the Master of Arts (Coursework) program, please see bond.edu.au/fsd.

PROFESSIONAL OUTCOMES

The Master of Arts (Coursework) is suited to all students wishing to further their undergraduate studies in a specialist area of choice.

MASTER OF ARTS (TESOL)

CRICOS Course Code 077993F

Duration: 1 year full-time (3 semesters)

Intensive mode delivery

Starting: Only available for January on-campus

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree or equivalent in education, language, linguistics, applied linguistics or language related disciplines at an approved institution; or recognised qualification in teacher education; or an undergraduate degree, plus a certification in TESOL, plus a minimum five years experience in teaching English.

PROGRAM DESCRIPTION

The Master of Arts (TESOL) program provides language teacher education in teaching and learning English as a second / additional language. The program aims to prepare prospective teachers of English as a Second Language for their future career and to assist current TESOL teachers in extending their professional knowledge. Subject content covers theoretical aspects of language, language teaching, language acquisition and the practical applications of these in language teaching. The Master of Arts (TESOL) prepares teachers for an international career in the diverse global world.

PROGRAM STRUCTURE

The Master of Arts (TESOL) program comprises 12 subjects, as follows:

Foundation Subjects (8)

Subjects dependent on commencement of program and option choice, please refer to program sequence.

- Research Methods in Humanities and Social Sciences
- Teaching English in Diverse Contexts
- Professional Practice in Language Teaching
- Nature of Language
- Second Language Learners
- Language in Society
- Language Teacher Skills
- Learning through Observation
- Language Assessment and Evaluation
- World Englishes
- Curriculum Design

Option: You may choose either the Minor or Major Option.

Major

- Dissertation in TESOL A
- Dissertation in TESOL B

Minor

- Supervised project in TESOL A; or English in Professional Context
- Supervised project in TESOL B

PROFESSIONAL OUTCOMES

This program will prepare you for work in diverse educational contexts. Our graduates teach English as a second / additional language at all levels, from primary to tertiary, across the globe. In Australia, the program is designed to meet the teaching standards of ELICOS, university language institutes and other language colleges. For details of English Language teacher qualifications in Australia, visit the National ELT Accreditation Scheme website neas.org. Our graduates also find employment in areas where the knowledge of different languages and cultures is highly valued including politics, diplomacy, economics, trade and drama.

ONLINE DELIVERY

This program is also available online to Australian students and international students outside Australia (not available to international student visa holders present in Australia) for January, May and September.

GRADUATE CERTIFICATE IN TESOL

CRICOS Course Code 063445E

Duration: 4 months (1 semester)

Starting: January

ENTRY REQUIREMENTS

An undergraduate degree from an approved institution.

PROGRAM DESCRIPTION

The Graduate Certificate in TESOL is a full-time program designed to provide initial training for teachers of English as a second language. It provides the basis for language teaching methodology and its practical applications.

You are required to complete at least 100 hours of a theoretical component and a minimum of six hours supervised classroom teaching. This program provides specialist training in English language teaching theory and practice for teachers or those planning to become teachers. It provides the theoretical basis and practical language teacher training required.

PROGRAM STRUCTURE

Students must complete the following four (4) subjects:

- Teaching English in Diverse Contexts
- Professional Practice in Language Teaching
- Language Teacher Skills

Plus one of the following subjects dependent on commencement of the program:

- Nature of Language
- Second Language Learners
- Language in Society

PROFESSIONAL OUTCOMES

Successful completion of this program qualifies someone who holds either a recognised, pre-service teaching qualification or a recognised degree or diploma and 800 hours of teaching ESL experience, to teach in an Australian ELICOS institute or the school system. Internationally, the graduates of this course teach in many countries across five continents. For more details about requirements of teacher qualifications in Australia visit the National ELT Accreditation Scheme website. Graduates could expect to find employment as a:

- English Teacher
- English Teaching Trainer

ONLINE DELIVERY

This program is also available online to Australian students (not available to international student visa holders) for January, May and September.

MASTER OF INTERNATIONAL RELATIONS

CRICOS Course Code 078661G

Duration: 1 year full-time (3 semesters)

Intensive mode delivery

Starting: January, May, September

ENTRY REQUIREMENTS

An undergraduate degree in international relations, political science, political studies, global studies or humanities / arts. Graduates from other disciplines may be considered.

PROGRAM DESCRIPTION

Bond University's Master of International Relations program is an innovative, forward-looking program that is attuned to the dynamics of the globalising world and its multiple diplomatic channels. You will gain a solid grounding in contemporary, theoretical and cultural issues.

PROGRAM STRUCTURE

Foundation Subjects (6)

- Epistemology and Theory of Knowledge
- Genocide - A Sociological and Criminological Approach

- Public Diplomacy - Theory and Practice
- South Asian International Relations
- Space Policy, Strategic Competition and International Security
- The United Nations

PROFESSIONAL OUTCOMES

This program will equip you with the critical thinking skills and strategic development required to expand your global career. You could seek to further your career in diplomacy, international trade, government and business through an enhanced understanding of regional and global politics, development, strategic decision making, sociology and economy.

MASTER OF INTERNATIONAL RELATIONS (PROFESSIONAL)

CRICOS Course Code 063306E

Duration: 1 year 4 months plus 20 week
(92 weeks - 4 semesters plus 20 weeks)
Intensive mode delivery

Starting: January, May, September

The Professional program follows the same structure as the Master of International Relations program with an additional 20-week Professional Portfolio component.

Professional Portfolio is a 45 credit point subject available to Master's (Professional) students in the Faculty of Society & Design. This subject is strongly experientially orientated and encourages students

to develop their professional skills in a real world environment. The subject will ensure that students combine self-analysis and reflective learning skills with professional methodologies, so as to expand analytical and strategic thinking capabilities. It will provide practical experience for students to develop their skills in a profession relevant to their master's specialisation.

All students will complete a 2,000 word scoping document, and either undertake a work placement in Australia for 210 hours (which includes an employer's report) and reflective journal (up to 5,000 words), or complete a collaborative research project totaling up to 15,000 words. All students will submit a final professional portfolio collection of documents, highlighting their practical and theoretical expertise in their profession of choice. The Professional Portfolio subject cannot be commenced until the student has successfully completed all 12 subjects of the master's component of the degree.

SOCIAL SCIENCES, PSYCHOLOGY AND COUNSELLING

CRIMINOLOGY

GRADUATE CERTIFICATE IN CRIMINOLOGY

CRICOS Course Code 083525F

Duration: 4 months (1 semester)

Intensive mode delivery

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree in a field cognate to the proposed degree.

PROGRAM DESCRIPTION

The Graduate Certificate in Criminology provides an understanding of a broad range of criminological theories and practical applications. This program will prepare students to undertake professional or skilled work, or as a pathway to more advanced areas of study. Students will be prepared to understand, evaluate and conduct research at a high level, understand knowledge acquisition and critical thinking, and will be exposed to theoretical concepts within criminology as well as performing evaluations of criminal behaviours through case studies.

PROGRAM STRUCTURE

Core subjects (2)

- Research Methods in Humanities and Social Sciences
- Epistemology and Theory of Knowledge

Foundation subjects (2)

Choose any two subjects from the following:

- Crime Analysis and Profiling
- Transnational Crime
- Genocide: A Sociological and Criminal Approach
- Forensic Criminology
- Security and Strategy in the 21st Century
- Politically Motivated Violence

Refer to page 9
for instructions

PROFESSIONAL OUTCOMES

The Graduate Certificate in Criminology is intended to equip students with an understanding of criminology and criminal behaviour by providing theoretical foundation with students then applying this to a range of case studies including stalking and homicide. Graduates of this program could find opportunities in the areas of research, intelligence analysis, policy analysis, service delivery, consulting, and other related fields. Students may find employment in state and federal agencies, research organisations, community service agencies, and other branches of the criminal justice system. This program will also provide students with the ability to transition into other advanced areas of study.

MASTER OF CRIMINOLOGY

CRICOS Course Code 078659A

Duration: 1 year full-time (3 semesters)

Intensive mode delivery

Starting: January, May, September

ENTRY REQUIREMENTS

An undergraduate degree in criminology or sociology or legal studies or psychology or humanities / arts. Graduates from other disciplines may be considered.

PROGRAM DESCRIPTION

The Master of Criminology program provides you with skill development and training as well as scholarly appreciation of crime, justice and forensic issues. The course provides an understanding of a broad range of issues involving criminology theories, contemporary information on crime prevention, the theory and practice of punishment, criminal offenders, the police, courts and correctional institutions, including current crime and deviance issues. You will be provided with both knowledge and research skills and techniques required for the analysis of criminological issues and an understanding of how to critically evaluate published research.

PROGRAM STRUCTURE

Core subjects (2)

- Research Methods in Humanities and Social Sciences
- Epistemology and Theory of Knowledge

Foundation subjects (6)

- Politically Motivated Violence
- Forensic Criminology
- Genocide: A sociological and criminal approach
- Crime Analysis and Profiling
- Security and Strategy in the 21st Century
- Transnational Crime

Dissertation / Elective Option

Choice of one of the following options:

Option One

- Major Dissertation / Portfolio A
- Major Dissertation / Portfolio B

Option Two

- Minor Dissertation / Portfolio A
- Minor Dissertation / Portfolio B

- Plus any two Faculty of Society & Design postgraduate subjects

Dissertation / Portfolio Topics

The Faculty of Society & Design has highly skilled academic staff that can provide supervision to students in the following areas:

- A Critical Examination of the Criminal Justice System and Why Mistakes Happen
- Analysis of an Effective Response to the Illicit Drug Problem
- Analysis of Regulations Pertaining to Crime and Criminal Justice
- Case Analysis of Miscarriage of Justice
- Comparing Efficiency of Different Methods of Criminal Profiling
- Consequences of Wrongful Convictions
- Copycat Crime and New Media
- Corruption and Bribery in the Justice System
- Criminal Justice and Youth Crime
- Cyber Bullying - Where Does the Responsibility Lie?
- How Stalking Victims Prolongs the Intensity or Duration of Stalking
- Indigenous Crime and Justice
- Looking at Criminal Investigations and Understanding the Social and Criminological Context Within Which These Operate
- Measures to Prevent Violence in the Workplace
- Media Coverage of a Topical Crime Genre
- Preventing Assaults on Drivers of Public Transport
- The CSI Influence on Juries
- The Link Between Self Esteem and Crime
- Understanding the Role Victims Play in the Criminal Justice System

PROFESSIONAL OUTCOMES

The Master of Criminology program enables those with an existing knowledge or early career in criminology to develop research skills as they relate to various areas of criminological enquiry, and communicate the results of any research findings to both technical and non-technical audiences. It will equip graduates with the critical thinking skills and strategic development required to expand their criminology careers.

MASTER OF CRIMINOLOGY (PROFESSIONAL)

CRICOS Course Code 063307D

Duration: 1 year 4 months plus 20 weeks

(92 weeks - 4 semesters plus 20 weeks)

Intensive mode delivery

Starting: January, May, September

The Professional program follows the same structure as the Master of Criminology program with an additional 20-week Professional Portfolio component.

Professional Portfolio is a 45 credit point subject available to Master's (Professional) students in the Faculty of Society & Design. This subject is strongly experientially orientated and encourages students to develop their professional skills in a real world environment. The subject will ensure that students combine self-analysis and reflective learning skills with professional methodologies, so as to expand analytical

and strategic thinking capabilities. It will provide practical experience for students to develop their skills in a profession relevant to their master's specialisation.

All students will complete a 2,000 word scoping document, and either undertake a work placement in Australia for 210 hours (which includes an employer's report) and reflective journal (up to 5,000 words), or complete a collaborative research project totaling up to 15,000 words. All students will submit a final professional portfolio collection of documents, highlighting their practical and theoretical expertise in their profession of choice. The Professional Portfolio subject cannot be commenced until the student has successfully completed all 12 subjects of the master's component of the degree.

PSYCHOLOGY

GRADUATE DIPLOMA OF PSYCHOLOGICAL SCIENCE

CRICOS Course Code 063195G

Duration: 8 months full-time (2 semesters)

Starting: January, May, September

ACADEMIC ENTRY REQUIREMENTS

Entry requirements for the Graduate Diploma of Psychological Science include completion of an accredited three-year sequence of study in psychology in Australia, or equivalent. Applicants are assessed on academic merit and must have achieved a minimum GPA of 2.0 on the Bond University four-point scale for all second and third level psychology subjects in their undergraduate studies.

PROGRAM DESCRIPTION

The Graduate Diploma of Psychological Science is designed to provide students with an integrated, comprehensive, and complete education in the discipline of psychology. Students undertake advanced training in a range of methodological (research methods, psychometrics, statistics) and applied areas, and develop competence in conducting research. All applied material is based on the scientist-practitioner model, and evidence-based approaches to psychological intervention are stressed.

The Graduate Diploma of Psychological Science provides students with advanced education and training in the core psychology graduate attributes, including but not limited to the following:

- Advanced theoretical and empirical knowledge in some of the core research areas of the discipline.
- Knowledge of the theoretical and empirical bases underpinning the construction, implementation and interpretation of some of the most widely used cognitive and personality assessments.
- Knowledge of the theoretical and empirical bases underpinning evidenced based approached to psychological intervention.
- Explaining how the science and practice of psychology is influenced by social, historical, professional and cultural contexts.

The Graduate Diploma of Psychological Science prepares graduates for a career in psychology. On completion of this course, graduates may apply for provisional registration as a psychologist providing they enrol in further postgraduate studies or undertake two years' supervised training.

PROGRAM STRUCTURE

Foundation subjects (5)

- Diploma Thesis 1: Research Seminar and Ethics
- Diploma Thesis 2
- Principles of Psychological Assessment
- Multivariate Research Methods
- Human Experimental Psychology

Electives (2)

Choose any two of the following subjects:

- Clinical Psychology
- Community and Health Psychology
- Forensic Psychology
- Neuropsychology
- Industrial and Organisational Psychology
- The Scientist Practitioner Model
- Social Cognition

PROFESSIONAL OUTCOMES

Under supervision, you will be able to pursue a career in the professional practice of psychology including clinical, forensic or organisational psychology, counselling, clinical neuropsychology, health and community psychology, sports psychology, research and other specialist areas.

PROFESSIONAL RECOGNITION

The Graduate Diploma of Psychological Science is fully accredited by the Australian Psychology Accreditation Council.

MASTER OF PSYCHOLOGY (CLINICAL)

CRICOS Course Code 063429E

Duration: 2 years full-time (6 semesters)

Starting: May

ACADEMIC ENTRY REQUIREMENTS

Completion of an Australian Psychology Accreditation Council accredited four year sequence of study in Psychology (such as Bachelor of Psychological Science (Honours) or Graduate Diploma of Psychological Science) or equivalent within the last 10 years and have achieved a minimum upper second class honours (H2A) or equivalent. Applicants must also be eligible for provisional registration as a psychologist. IELTS score of 7.0 with no band less than 7.0. Applicants are assessed on academic performance, referee reports and personal suitability via interview.

Those who have obtained their qualifications outside Australia must have their qualifications assessed prior to applying for this program and prior to applying for registration with the Psychology Board of Australia. The Australian Psychological Society provides this assessment service for the Board and the assessment assists the Board in determining if your qualifications are equivalent to an 'approved qualification'. However, it is important to note the final decision on equivalence

rests with the Board. For more information on equivalency assessments please visit psychology.org.au.

If you obtained your qualifications outside Australia please submit evidence of your Australian Psychology Society equivalency with your application. You must obtain provisional registration from the Psychology Board of Australia before commencing the program.

PROGRAM DESCRIPTION

This program is designed for individuals seeking registration as a clinical psychologist or for registered psychologists seeking to upgrade their existing qualifications. The program provides in-depth training in the diagnosis, assessment and treatment of psychological disorders across a wide range of client populations. There is an emphasis on the scientist-practitioner approach.

This program is also designed to provide education, knowledge, training and clinical skills in professional psychology to meet the requirements for registration as a psychologist.

Placements are an integral part of this program. Students will undertake practical placements as part of their clinical training.

PROGRAM STRUCTURE

Foundation Subjects (7)

- Advanced Psychological Assessment
- Counselling Psychotherapies and Clinical Skills
- Health Psychology
- Psychopathology and Therapy: Adults 1
- Psychopathology and Therapy: Adults 2
- Psychopathology and Therapy: Families, Children and Adolescents
- Research Methods, Professional Practice and Ethics

Elective Subjects (1)

One of the following electives:

- Advanced Cognitive Neuropsychology
- Psychodynamic Psychotherapies
- Counselling Psychotherapies and Clinical Skills
- Psychopharmacology and Pharmacotherapy

Dissertation Subjects (4)

You must undertake a research project that allows you to investigate and report on a specialised topic in the area of clinical psychology. This component is equivalent to four subjects.

Practical Placements (4)

- Internship: Part A
- Internship: Part B
- Externship I
- Externship II

You must complete the first two-semester internship at the Psychology Clinic on campus under staff supervision and two externships* in a clinical community setting under external supervision.

PROFESSIONAL OUTCOMES

This program meets the requirements set out by the Psychology Board of Australia. Graduates will be eligible to apply for full registration after two years of probationary registration. You will be eligible to apply for membership to the Australian Psychological Society

(APS) and associate membership to the APS College of Clinical Psychologists.

PROFESSIONAL RECOGNITION

The Master of Psychology (Clinical) is fully accredited by the Australian Psychology Accreditation Council and has full approval of the APS, for the purpose of associate membership to the APS College of Clinical Psychologists.

*Students may be required to travel outside the Gold Coast region to undertake their external placement. Students are responsible for arranging their own transportation to and from externship locations. If external placements are not completed on time students may need to extend beyond the six semesters in order to complete all the necessary components of the program. This may have an impact on Australian students in receipt of Centrelink benefits, and students are responsible for informing themselves on this matter.

MASTER OF PROFESSIONAL PSYCHOLOGY

CRICOS Course Code 063430A

Duration: 8 months (2 semesters)

Starting: May

ENTRY REQUIREMENTS

Completion of an Australian Psychology Accreditation Council accredited four year sequence of study in Psychology (such as Bachelor of Psychological Science (Honours) or Graduate Diploma of Psychological Science) or equivalent within the last 10 years, and have achieved a minimum upper second class honours (H2A) or equivalent. If you obtained your qualifications outside Australia, please submit evidence of your Australian Psychology Society equivalency with your application. You must obtain provisional registration from the Psychology Board of Australia before commencing the program.

PROGRAM DESCRIPTION

This program is also designed to provide education, knowledge, training and clinical skills in professional psychology to meet the requirements for registration as a psychologist.

Placements are an integral part of this program. You will undertake practical placements as part of your training.

BOND UNIVERSITY PSYCHOLOGY CLINIC

The Clinic is a private university teaching clinic for provisionally registered psychologists undertaking postgraduate study in clinical or forensic psychology. The lab functions as a centre for clinical research to support study.

HIGHER DEGREES BY RESEARCH

MASTER OF ARTS (BY RESEARCH)

CRICOS Course Code 063454D

Duration: 2 years full-time

Starting: January, May, September

ENTRY REQUIREMENTS

Minimum requirement for admission is:

- A four year (eight semesters) honours degree - First Class, 2A, 2B; or
- A qualification or combination of qualifications deemed to be equivalent to the above by the Higher Degrees by Research Committee.

DOCTOR OF PHILOSOPHY

CRICOS Course Code 063150J

Duration: 4 years full-time

Starting: January, May, September

ENTRY REQUIREMENTS

Minimum requirement for admission is:

- A four year (eight semesters) honours degree - First Class or 2A; or
- A research master's degree; or
- A qualification or combination of qualifications deemed to be equivalent to the above by the Higher Degrees by Research Committee

MASTER OF PHILOSOPHY

CRICOS Course Code 072092F

Duration: 2 years full-time

Starting: January, May, September

ENTRY REQUIREMENTS

An Australian Qualifications Framework Level 7 Bachelor degree in the same discipline.

This program offers you the opportunity to undertake an extended and focused study in a specific area of research interest, or development of creative works. In certain circumstances, it may be used as a pathway to PhD studies, pending appropriate approvals.

Candidates will be required to submit a piece of work totalling 30,000 to 40,000 words, or an equivalent weight of work for a creative arts project.

The topic must be approved by the Faculty and appropriate supervision must be available.

Candidates who have completed more than nine months of a master's by research and who meet the requirements for admission to PhD candidature may apply to be admitted to confirmed PhD candidature. In successful cases, the PhD candidature will be considered to have begun at the time of commencement of the research master's degree.

Prospective candidates for whom English is not a first language must be able to demonstrate proficiency in English as specified by the University's English language requirements.

HIGHER DEGREES BY RESEARCH

Bond University offers postgraduate research degrees, at master's and doctoral level in all faculties. These include the Master by Research, Master of Philosophy (MPhil), Doctor of Legal Science (SJD), Doctor of Philosophy (PhD) and Doctor of Philosophy by Published Work (PhD).

The University fosters innovative and entrepreneurial research that contributes to new ideas in regional, national and global contexts. Our partnerships with private enterprise, industry organisations, government agencies and international universities give candidates opportunities to learn and work with world-leading ideas and people in a range of knowledge economy disciplines.

Be a part of a high quality research environment and benefit from our strong focus on postgraduate research studies. The Bond experience brings broader benefits including:

- Access to external and University scholarships;
- Our team supervision approach which provides students with access to a broad range of research skills and expertise;
- Access to a broad range of undergraduate or postgraduate subjects;
- Foundational research training including the theory of knowledge, research methodology, ethics and research communication;
- An innovative induction and professional development programs to enhance the educational experiences of postgraduate research students; and
- Comprehensive research support including publications, grants and ethics.

The Research Training Program provides fee-free postgraduate research degree places to eligible Australian or New Zealand citizens, or Australian permanent residents. For more information and to make an expression of interest, visit bond.edu.au/postgradresearch.

Each Faculty offers specialist expertise and independent research capability in a range of disciplines.

EXCHANGE OPPORTUNITIES

Bond University has over 80 partnerships with leading universities in 27 countries, enabling you to benefit from a global educational experience. A semester abroad will enable you to begin your next adventure without disrupting the time it takes to complete your degree. Not only will you get to live and study in another country, there are educational, personal and future career benefits to going on exchange. You will gain an international perspective to your degree, develop increased self-confidence and maturity, and stand out to future employers from the challenges you overcome during the experience. There are also variety of exchange grants from \$2,000 to \$7,500 that are available to assist with overseas living costs.

“

I was fortunate to study at Osaka University. Japan is one of many culturally rich countries within Asia, and throws you right in the deep end of life. I mean this in the most positive way. Trekking out in the snowy mountains of Hokkaido, escaping to Seoul for the weekend, 12 hour bike trips and so much more to explore. It's staggering, knowing just how much I could achieve in a single year. I met incredible people from all corners of the world, and together we explored Japan. This made for incredible memories. I took so much away from this experience.

SEBASTIAN THOMAS
BACHELOR OF ARTS / BACHELOR OF LAWS

SEBASTIAN THOMAS

“

“Living in the Netherlands and studying at Leiden University has been one of the most significant experiences of my life so far! Learning from leading experts at the Leiden Law School has greatly expanded my knowledge and understanding in areas such as privacy law, internet governance and European legal history. In addition, I have been learning Dutch, attended events at The Hague, and have travelled to Finland, Russia, Germany and Belgium. Moving to a new country alone is transformative; this experience has enabled me to step outside my comfort zone, to gain personal and professional growth and make new friendships with students from all over the world.”

MITCHELL WILLOCKS
BACHELOR OF BUSINESS / BACHELOR OF LAWS

MITCHELL WILLOCKS

STUDENT SERVICES

Bond students benefit from the range of support services available on campus, relating to every aspect of study, medical and personal wellbeing and career development.

SUPPORT SERVICES

Bond values the cultural differences and diversity brought to the campus by its Australian and international students and makes every attempt to ensure you feel welcome.

The personalised attention you receive in the classroom extends to every aspect of life at Bond. The University offers students numerous learning support services including:

- Computer support
- Disability support
- Medical services
- Nyombil Indigenous Support Centre
- Pastoral care
- Psychological services
- Safety on campus
- Student learning support
- LGBTIQ services and support

RESPECT.NOW.ALWAYS

Bond University and the Bond University Student Association (BUSA) are jointly committed to a healthy culture of respect and responsibility that provides for a safe and supportive campus for everyone.

Bond University has a zero-tolerance approach to sexual assault, harassment and violence.

For more information on the student support services offered at Bond visit; bond.edu.au/current-students/services-support/student-support.

STATE-OF-THE-ART FACILITIES

Studying at Bond University provides you with access to world-class facilities on campus. You will gain a clear advantage through easy access to unparalleled academic, technological and recreational facilities.

TECHNOLOGY

The Balnaves Foundation Multimedia Learning Centre (MLC) is a technology-rich and architecturally exciting learning environment. It provides over 300 collaborative study spaces and the latest audio visual and computer technology in a spectacular location. Access to study booths with LCD screens for interactive learning, a collaborative learning room with a Smartboard, HD projector and video conferencing facilities are provided together with flexible furniture arrangements to accommodate group work and discussion.

LIBRARIES

Bond University's John and Alison Kearney Library provides access to a wide range of resources that support the teaching, research, and learning needs of the University. The collection contains over 240,000 ebooks, 120,000 physical items and 75,000 electronic and print journals.

The Library, which can accommodate over 450 students and has over 200 computer workstations, is housed in a contemporary setting with the lakeview room providing spectacular views over the campus.

The recently refurbished John and Alison Kearney Law Library has the capacity to accommodate over 350 students with over 40 computer workstations. It provides a fresh and modern environment that maximises natural views with flexible study options, consultation spaces, active, collaborative, and silent study areas. A unique feature of the refurbished space is the inclusion of a Moot Court.

CAFÉS AND RESTAURANTS

Bond University offers a range of dining styles on campus. Lakeside Bar and Restaurant and Papyrus Cafe offer dine-in and takeaway options, and the University Club hosts dine-in lunch overlooking the lake. Bond caters to most dietary requirements including gluten free, halal, vegetarian and vegan options.

SPORT AT BOND

At Bond University, sport is a part of our DNA. We see sport and education entwined. We have a proud history of sporting tradition and we support all students in their endeavours to play, compete and represent at all levels.

SPORTS CENTRE

Bond University's Sports Centre encompasses a gym with state-of-the-art fitness equipment and measures 2,700 sqm. The centre is truly the jewel in the crown of Bond University Sport. All students get free access to Bond's wide range of sporting facilities including:

- World-class gym
- 50 meter heated Olympic swimming pool
- Spa
- Beach volleyball courts
- Group exercise rooms and classes
- Rugby and AFL / Soccer fields
- Sports Hall
- Squash courts
- Tennis courts
- Golf and cricket practice nets

For more details visit bond.edu.au/sports-centre

SPORT CLUBS

The University has over 20 sport clubs to choose from, which compete both socially and competitively. Our sport clubs compete under the Bond Bullsharks banner and one of the many highlights includes participating at the Australian University Sport Nationals. Joining a club is a great way to make new friends and stay active. For information on Bond's Sport clubs and programs visit sport.bond.edu.au.

PERFORMANCE SPORTS

At Bond we have a number of key performance sports in which we offer world-class coaching and facilities. These sports include swimming, rugby union including women's rugby 7's, AFL and netball. With each of these sports we have high level partnerships and strategies to ensure we compete at the highest level both domestically and on the global stage.

BOND ELITE SPORT PROGRAM

At Bond we pride ourselves on being an elite athlete friendly university. Athletes at the very top of their sport have the chance to join Bond's Elite Sport Program (BESP). BESP allows athletes the flexibility to balance their goals both on the sport field and in the class room.

For details on Bond's Elite Sport Program please visit sport.bond.edu.au/programs/elite-sport-program

Student Accommodation

ACCOMMODATION

ACCOMMODATION OPTIONS

With the variety of accommodation options, there's something to suit most students' preferences, whether you wish to live on or off campus.

STUDENT HOUSING

Bond offers a variety of accommodation options, all within easy walking distance of lecture theatres, Don's Tavern, restaurants, Bond's Sports Centre, sporting facilities and faculties.

In addition to the one-on-one academic and personal support available from the live-in team of Senior Resident Fellows, Resident Student Fellows and Tutor Fellows, resident students enjoy a great social life as they mix with classmates at mealtimes and in study sessions - and there's always someone around to talk to in the shared common areas.

All student housing is air-conditioned with the following options available:

Single Room - Private Ensuite

Single rooms with private ensuite facilities.

Single Room - Share facilities

Single room with shared bathroom facilities.

Single Room - Flat

Single room in a flat comprising two or three bedrooms with shared bathroom and limited cooking facilities.

Twin Share Room - Standard

Twin room with two single beds and a shared ensuite.

Twin Share Room - Deluxe

Shared bedroom, ensuite and common area.

Twin Share Room - Premium

Larger shared accommodation with two private rooms and a shared ensuite.

APPLYING FOR STUDENT HOUSING

Accommodation on campus is in high demand so it is best to complete your application for student housing as soon as it becomes available. To view rooms online and complete

your application for shared accommodation, visit bond.starrezhousing.com/StarRezPortal

While residing on campus, it is mandatory to have a dining plan which can be used at, Lakeside Bar and Restaurant, Papyrus Café, Don's Tavern, Coffee Cart, Serum Coffee, Bond Xpress, and the University Club. Flexible dining plans are available allowing students to purchase on-campus meal options. You can top up your dining plan starting at \$110.

Current residents are welcome to stay in residences during the semester vacations. If Bond University has booked these rooms for outside conferences, all belongings are to be packed and placed into storage. Students are required to vacate rooms over the Christmas period. If no outside conferences are booked and you choose to stay in University accommodation during vacation periods, you will be charged a weekly rate (please refer to the website for accommodation costs).

For more information about Bond University on-campus accommodation, please visit our website at bond.edu.au/accommodation or email student_residences@bond.edu.au.

OFF-CAMPUS ACCOMMODATION

There is a wide range of rental accommodation surrounding the University if you would like to live off campus. Options include houses or apartments on a single or shared basis with weekly rent varying, depending on size, location and the number of bedrooms. You will also need to budget for a security deposit (bond), food, electricity, telephone, internet and cleaning. Students who reside off campus can also purchase a dining plan starting from \$110. For information on dining plans please visit bond.edu.au/accommodation.

GETTING AROUND

The University is a 30 minutes' drive from the Gold Coast Airport and just over one hour from Brisbane International and Domestic Airports. Airport transfers can be booked via bond.starrezhousing.com/StarRezPortal for either airport and transport you to your accommodation housing. A rail service operates between Varsity Lakes and Brisbane. Regular bus services operate from the University to the main shopping, residential and tourist areas on the Gold Coast and Brisbane. In addition, there are a number of shops, cafés, restaurants and facilities within walking distance of the campus at Varsity Lakes.

LIFE AT BOND

Bond has a real community feel and a vibrant student social life. From sporting, social and special interest clubs, as well as a full calendar of events and gatherings. As a Bond student you have access to a variety of facilities including our world-class Sports Centre.

STUDENT ACTIVITIES MEMBERSHIP

The Bond University Student Activities Membership (SAM) is a compulsory charge in accordance with the provision of the Student Services and Amenities Fee legislation.

SAM provides you with access to the Sports Centre and clubs offered by the Bond University Students Association (BUSA). The fee is used solely to support a wide and varied range of student events, activities and student services, as well as to purchase important equipment for the Sports Centre and to support the activities of Bond's wide range of social, sporting and cultural clubs.

The fees are paid each semester. The 2018 fees are \$99 for full-time and \$74.50 for part-time students.

BOND UNIVERSITY SPORTS CENTRE

- Access to all group exercise classes
- Access to Sports Centre facilities and sports equipment hire
- Discounted prices on massage services
- Discounted prices on personal training packages

BOND UNIVERSITY STUDENTS ASSOCIATION (BUSA)

- Discounted or waived sports coaching fees
- Discounted or waived ticket prices for BUSA events
- Discounts and special offers from local businesses
- Eligibility for membership of University sporting clubs
- Financial support for those travelling to university sports championships and university games
- Membership of BUSA
- Representation on academic and administrative issues
- Support for new sporting clubs and events

CLUBS, SOCIETIES AND FACULTY STUDENT ASSOCIATIONS

You can sign up to over 100 student clubs at Club Sign On Day, held the first Friday of each semester. Below are a few examples of clubs and activities that you can access:

- Athletics and Running Club
- Badminton Club
- Basketball
- Bond Children's Holiday Camp
- Bond Christian Connection
- Bond Music Society

- Bond Pride Alliance
- Business Students' Association
- Canadian Law Students' Association
- Cheerleading
- Cricket
- Drama Society
- Equestrian Club
- Golf Club
- International student events
- Journalism Students' Association
- Law Students' Association
- Make a Difference - Global Health Group
- Muslim Students' Association
- Netball
- Rowing
- Rugby
- Soccer
- Tennis
- Touch Football
- United Nations Club
- Water Polo

WEDNESDAY BY THE WATER

Wednesday by the Water is a weekly student event. Funded by your SAM fee, it is a great excuse to be outside enjoying the beautiful blue sky while having a barbecue lunch with friends by the lake.

RES WARS

Resident students also get to take part in the weekly Res Wars where teams from each residential complex compete in a variety of sporting activities and other traditional university events.

YOUTH ALLOWANCE / AUSTUDY

If you are an Australian citizen or permanent resident aged 16 years or over and studying full-time, you may be eligible to apply for Austudy / Youth Allowance benefits from the Commonwealth Government. For more information, please contact Centrelink directly.

If you are undertaking a professionally oriented Masters by Coursework degree that is required for entry to a profession or is the fastest pathway to professional entry, eligible students are able to receive Youth Allowance, Austudy or Pensioner Supplement. For more information, visit bond.edu.au/fees.

STUDENT OPPORTUNITY FUND

You will have the opportunity to undertake a range of experiences and activities which will enhance your university and learning experience while studying at Bond. To assist you in accessing these opportunities the Student Opportunity Fund was created for students to apply for financial assistance up to AUD\$2,000. For more information on eligibility and application closing dates, visit bond.edu.au/student-opportunity-fund.

FAMILY LOYALTY DISCOUNT

A 10% cent rebate of tuition fees is available to students where an immediate family member is also studying at Bond or has graduated from Bond (conditions apply).

For more information, please visit bond.edu.au/loyalty-discounts.

ALUMNI LOYALTY DISCOUNT

A 10% discount on tuition fees is available to students who have completed a full degree program at Bond University and are granted admission to a further degree (conditions apply). For more information please visit bond.edu.au/loyalty-discounts.

LIVING COSTS

You should allow approximately AUD\$6,200 - \$9,000 for living costs each semester that you live on the Gold Coast. This may vary depending on your budget for rent, food, transport, clothing, recreation, textbooks, telephone, electricity and other living expenses. Please note this figure has been calculated using shared off-campus accommodation. For more information visit bond.edu.au/study-at-bond/study-abroad/living-expenses. At Bond University you will not need to budget for on-campus parking as it is made available free of charge to all students.

BOOKS AND STUDY MATERIALS

The costs for books, stationery, software and other resources tend to be the same at most universities. Allow around AUD\$300 per semester to help offset this cost. You may choose to sell your old textbooks and buy secondhand at the Bond Book Sale held the Friday of Week 1 each semester.

PART-TIME WORK FOR INTERNATIONAL STUDENTS

Australian Government regulations permit international students to work up to 40 hours in a fortnight and full-time during semester breaks. Please note you cannot commence work until you commence your degree program in Australia. As work can't be guaranteed, it should be viewed as a supplementary source of funds only and not relied on to cover tuition or living costs.

Karen Mistry, Bond University Scholarship Recipient
Bachelor of Exercise and Sports Science / Doctor of Physiotherapy

SCHOLARSHIPS

One of the key ways Bond University identifies future leaders is through our scholarship program. Higher degree research scholarships, part tuition scholarships and bursaries are awarded to postgraduate applicants who have demonstrated outstanding academic ability, community involvement, sporting achievements and strong leadership skills.

BOND UNIVERSITY SCHOLARSHIPS (NON-RESEARCH BASED)

For information on Bond's postgraduate scholarship opportunities, selection criteria, deadlines and conditions, please contact the Manager, Schools and Community in your area or visit bond.edu.au/scholarships.

BOND UNIVERSITY HIGHER DEGREE RESEARCH SCHOLARSHIPS

Higher degree research (HDR) scholarships aim to ensure students have sufficient resources whilst studying at Bond. Scholarships are awarded to commencing doctoral degree research students through a competitive selection process, to provide financial support to HDR students for a specified period while they are studying. Learn more at bond.edu.au/researchers/higher-degrees/scholarships-support.

RESEARCH TRAINING PROGRAM

These scholarships are funded by the Australian Government. Stipends and fee-waiver scholarships are available for domestic and international students seeking to undertake research-based postgraduate degrees. For further information visit education.gov.au/research-training-program or bond.edu.au/researchers/higher-degrees/scholarships-support.

APPLICATION AND ENTRY

This section contains application and entry information for domestic students (Australian citizens, Australian Permanent Resident Visa holders and New Zealand citizens, but not Permanent Resident Visa holders of New Zealand).

ENTRY INTO BOND

Bond University's entry criteria are based on more than just your academic history. There is also an emphasis on leadership qualities, extracurricular activities, life experience and potential.

HOW TO APPLY

How to Apply

1. Complete the online application form at bond.edu.au/apply.
2. Bond University will assess your application.
3. If your application is successful, Bond University will send you a Letter of Offer and other information.

Bond University accepts direct applications for all programs except for the Medical Program[^].

Bond University Medical Program[^] Applications

Applications for the Medical Program[^] must be lodged through QTAC at qtac.edu.au. For information on application closing dates, visit bond.edu.au/timeline.

ENROLMENT PROCEDURES

Successful applicants will receive a formal Letter of Offer from Bond University, accompanied by a Response to Offer form and information on fee payments and accommodation.

To accept your place, return the Response to Offer form and your initial fee payment equivalent to the fee for one subject to the Office of Admissions or complete a Request for FEE-HELP assistance form online. For further information on accepting your offer, visit bond.edu.au/accept.

An enrolment guide and information about Orientation will be available on the Bond website approximately one month prior to semester commencement. Once you have accepted your offer, you can enrol in your subjects online via eStudent at any time prior to or during Orientation. The balance of your semester's fees must be paid to Bond University prior to the end of Orientation.

To apply for on-campus accommodation or for assistance finding somewhere to live off campus, visit bond.edu.au/accommodation.

DEFERMENT

Once you have been offered a place, you may apply to postpone your first year of study by completing Bond University's Response to Offer form, selecting the deferment option and returning it to the Office of Admissions.

Deferment is not available to students offered a place in the Medical Program[^], Doctor of Physiotherapy and Master of Psychology.

CLOSING DATES

Bond University accepts applications up to the semester of commencement*.

SEMESTER START DATES

| 2018 | 2019 |
|--------------|-------------|
| January 15 | January 14 |
| May 14 | May 13 |
| September 10 | September 9 |

*Except for the Medical Program[^], Health Sciences Honours Programs, Doctor of Physiotherapy, Master of Psychology (Clinical) and Master of Psychology (Forensic). Please refer to bond.edu.au/timeline for application closing dates.

[^]The Medical Program is comprised of two sequential degrees - the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a Medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

2019 ACADEMIC CALENDAR

Bond University's standard academic calendar consists of three semesters, meaning you can finish your degree sooner. Each semester normally includes 13 weeks of instructions and eight days of examinations.
